IV. Memo Items

(millions of US dollars)

	31.03.2014
(1) To be reported with standard periodicity and timeliness:	
(a) short-term domestic currency debt indexed to the exchange rate	—
(b) financial instruments denominated in foreign currency and settled by other means (e.g., in domestic currency)	—
— derivatives (forwards, futures, or options contracts)	—
— short positions	—
— long positions	—
— other instruments	—
(c) pledged assets	—
— included in reserve assets	—
— included in other foreign currency assets	—
(d) securities lent and on repo	—1,742.6
— lent or repoed and included in Section I	—1,043.5
— lent or repoed but not included in Section I	—1,742.6
— borrowed or acquired and included in Section I	—
— borrowed or acquired but not included in Section I	1,043.5
(e) financial derivative assets (net, marked to market)	—
— forwards	—
— futures	—
— swaps	—
— options	—
— other	—
(f) derivatives (forward, futures, or options contracts) that have a residual maturity greater than one year	—
— aggregate short and long positions in forwards and futures in foreign currencies vis-a-vis the domestic currency (including the forward leg of currency swaps)	—
(a) short positions (—)	—
(b) long positions (+)	—
— aggregate short and long positions of options in foreign currencies vis-a-vis the domestic currency	—
(a) short positions	—
(i) bought puts	—
(ii) written calls	—
(b) long positions	—
(i) bought calls	—
(ii) written puts	—
(2) To be disclosed less frequently:	—
(a) currency composition of reserves (by groups of currencies)	486,131.1
— currencies in SDR basket ¹	466,235.8
— currencies not in SDR basket	19,895.3
— by individual currencies (optional)	—

¹ Additionally included are gold, SDRs and IMF reserve position.

¹ This indicator includes the Bank of Russia's payments and also payments of the Bank of Russia customers — credit institutions and other than credit institutions customers.

² Including ruble-denominated payments from the accounts of credit institutions' customers (individuals, legal entities other than credit institutions); own payments of credit institutions; transfers made by individuals without opening a bank account. Payments with payment cards and transactions of credit institutions' customers at financial markets are not included. Instructions of credit institutions' clients are included in summary instructions of credit institutions.

³ This indicator doesn't include payments effected by settlement non-banking credit institutions.

Payments Effected by the Payment System of the Bank of Russia and Credit Institutions, by Method of Payment

¹ This indicator includes the Bank of Russia's payments and also payments the Bank of Russia customers – credit institutions and other than credit institutions customers.

² Including ruble-denominated payments from the accounts of credit institutions' customers (individuals, legal entities other than credit institutions); own payments of credit institutions; transfers made by individuals without opening a bank account. Payments with payment cards and transactions of credit institutions' customers at financial markets are not included. Instructions of credit institutions' clients are included in summary instructions of credit institutions.

³ Since 4Q 2013 the increase in volume and value of payments conducted by the Bank of Russia Payment System using paper technology has been connected with the update of the Bank of Russia's statistic methodology in accordance with the BIS recommendations.

¹ Data in brackets include the number of credit institutions in which the decisions taken by non-resident members (whose total stake in authorised capital of credit institutions is over 50%) are greatly influenced by residents of the Russian Federation.

² Since June 30, 2013 indicator shows the quantity of the credit institutions if taking into account complete emissions which resulted in changes of authorized capital that have not been registered in charters.

8. SUMMARY METHODOLOGY

Section 1. Main Macroeconomic and Monetary Indicators

**Table 1.1
Macroeconomic Indicators**

General Provisions

The "Macroeconomic Indicators" table contains major (indicative) indicators characterizing the country's macroeconomic situation.

Individual Indicators Highlights

Gross Domestic Product (GDP) at market prices is the most important indicator of the System of National Accounts of Russia (the SNA of Russia), which is based on the methodology of the "System of National Accounts, 1993" prepared under the auspices of the Inter-Secretariat Working Group on National Accounts set up by the Eurostat, the International Monetary Fund, the Organisation of Economic Cooperation and Development, the UNO, and the World Bank. Certain deviations of the SNA of Russia are conditioned by the specificities of the functioning of certain economy sectors. In 2009 the UN Statistical Commission adopted an updated SNA version — the "System of National Accounts, 2008" (SNA 2008).

GDP is an aggregate indicator of a country's economic activity; it characterises the end result of resident economic agents' performance and is measured as a value of goods and services produced by these agents for final consumption. At the production stage, GDP is a sum of value added by types of economic activities at basic prices and of net taxes on products, and at the stage of consumption it is a value of goods and services designed for final consumption, gross capital formation and net export.

GDP estimates are created using the principle of recurrent analysis: they are adjusted in the course of the procedure and within the timeline of obtaining the most important data sets by the Federal State Statistics Service.

Initial estimates are based on operative reporting data and preliminary calculations and are designed for the operative monitoring of GDP total volume and dynamics. Estimates made at subsequent stages draw on the information base formed as a result of processing of separate statistical data sets on the results of residents' economic activity, investments, consumption expenditure, foreign economic relations, balance of payments, reports on state budget execution.

Being principle by its nature, the annual GDP estimate is seasonally adjusted and achieves the highest degree of harmonisation of various indicators on output by activity type, on the use of goods and services for final consumption and on revenue formation.

Quarterly GDP estimates are prepared for monitoring intrayear dynamics based on the current statistics and sample surveys. Quarterly GDP values are updated after getting more precise annual data during the compilation of annual national accounts.

Dynamics of real volume of GDP percentage against the previous year's relevant period is calculated by the Federal State Statistics Service in comparable prices for the previous period.

Production and Services Index of the key types of economic activity as % of previous year's relevant period is computed on a monthly basis by the Federal State Statistics Service using the data on the dynamics of the volume of agricultural production, minerals extraction, manufacturing, electricity, gas and water production and distribution, construction, transport, retail and wholesale trade.

Consumer price index (CPI) is one of the most important inflation indicators. The CPI reflects a change of the overall level of prices of goods and services purchased by households for nonproduction use. This index measures a ratio of the cost for a fixed basket of goods and services in the current period to its cost in the previous period.

Estimates and final GDP calculations, as well as CPI data are released as they are prepared within the Federal State Statistics Service's regular reports "Russia's Social and Economic Situa-

tion", "Statistical Survey" Bulletin, other publications by the Federal State Statistics Service, and in the IMF "International Financial Statistics".

**Table 1.2
Selected Budget Indicators**

General Provisions

The table "Selected Budget Indicators" contains data on revenues and expenditures of Russia's consolidated budget and the budgets of government extra-budgetary funds in billion rubles and reflects the structure of the Russian Federation's consolidated budget and the budgets of government extra-budgetary funds broken down into revenues and expenditures of the federal budget, consolidated budgets of constituent members of the Russian Federation (on a cash basis), the budgets of government extra-budgetary funds and the budgets of regional government extra-budgetary funds.

Individual Indicators Highlights

Budget — a form of receipt and usage of funds intended to finance the goals and tasks of federal and local government bodies.

Consolidated budget — an aggregation of budgets of Russia's budget system in the respective regions (excluding the budgets of government extra-budgetary funds) net of transfer payments between these budgets.

Budget revenues — proceeds received by the budget, excluding funds defined as sources of budget deficit funding in accordance with the Budget Code of Russia.

Budget expenditures — funds paid from the budget, excluding funds defined as sources of budget deficit funding in accordance with the Budget Code of Russia.

Budget deficit/surplus — excess of budget expenditures over budget revenues/budget revenues over budget expenditures.

Data in the table are provided monthly by the Federal Treasury.

For more detailed information on the federal budget deficit/surplus, see the table "Sources of Federal Budget Deficit Funding".

**Table 1.3
Sources of Federal Budget
Deficit Funding**

General Provisions

The table "Sources of Federal Budget Deficit Funding" reflects the amounts and structure of the sources of federal budget deficit funding on a cash basis.

The table presents internal and external sources of funding the federal budget deficit. The sources of the internal financing are presented as follows: the ruble-denominated federal government securities (placement-redemption), government reserves of precious metals and gemstones (revenues-expenditures), the change in the balances of budget funds (increase-decrease), including the balances of the Russian Government's Reserve Fund and the National Wealth Fund. The sources of external financing represent foreign currency-denominated federal government securities (placement-redemption) and foreign government loans and loans from international financial organisations and other international entities and foreign legal entities (borrowing-repayment). The aggregation is based on the budget classification of the Russian Federation applied in compliance with the Budget Code of the Russian Federation and endorsed by the Russian Federation Ministry of Finance Order No. 171n, dated December 21, 2012, "On the Approval of the Instructions on the Procedure for Using the Budget Classifica-

tion of the Russian Federation for 2013 and for the scheduled period 2014 and 2015".

Data in the table are provided monthly by the Federal Treasury.

Table 1.4 The Russian Federation Balance of Payments

General Provisions

Balance of payments of the Russian Federation (hereafter referred to as balance of payments) is a statistical statement, which reflects all economic transactions between Russian Federation residents and nonresidents¹ within a reporting period.

The table "Russian Federation Balance of Payments" is compiled and published by the Bank of Russia on a quarterly basis.

Balance of payments data is one of the major instruments used for elaborating the country's macroeconomic policies, namely, foreign trade policy, foreign exchange regulation and control, and exchange rate policy.

Balance of payments is compiled by the Bank of Russia based on basis of (i) the Federal Law No. 86-FZ "On the Central Bank of the Russian Federation (Bank of Russia)" dated July 10, 2002 and (ii) the Russian Federal Government Order No. 849 dated July 18, 1994. The methodological basis for the balance of payments is the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*.

Conceptually, *BPM6* maintains the overall framework of the methodology of the previous fifth edition of the *Manual (BPM5)*. *BPM6* deepens the harmonization of the IMF's external sector statistics' recommendations with the update of the *System of National Accounts*, and the international standards in the area of direct investment statistics and other macroeconomic statistics.

The main changes in the accounts of the balance of payments include the following: within *balance on trade in goods – goods for and after processing* are excluded and *net exports of goods under merchanting* are included; within *balance on trade in services – manufacturing services on physical imports owned by the others and financial intermediation services indirectly measured (FISIM)* items are added; within *balance on income – rent* is included; within *capital account – migrants' transfers* are excluded. *Balance on income* and *balance on current transfers* have been respectively renamed as *primary income* and *secondary income* accounts, *monetary authorities* sector — as *central bank*.

Calculations of some of the balance of payments items and data aggregations have been adjusted in many other instances to reflect the improved methodology and reclassification of certain components in accordance with *BPM6*.

Sources of information are comprised of returns on foreign economic transactions performed by Russian residents. These returns are regularly obtained by the Bank of Russia from Russia's Ministry of Finance (Minfin), Federal Customs Service, Federal State Statistics Service, Federal Migration Service, Frontier Service of the Federal Security Service, Defense Ministry, Emergencies Ministry, international financial organizations, credit institutions, custodians, non-financial corporations as well as the Bank of Russia's expert estimates.

A specific list of reporting forms and other background materials are available on the Bank of Russia's Internet website. They are also published in special issues of the Bank of Russia's weekly edition of the *Bank of Russia Bulletin*, which contain besides more detailed data on the balance of payments for the reporting period, and metadata (e.g., see the *Bank of Russia Bulletin* No. 8–9 (1404–1405). The informational analytical addition "Balance of payments and External Debt of the Russian Federation for the reporting period" placed on the Bank of Russia's

Internet website contains an analogous set of data on balance of payments.

The table "Russian Federation Balance of Payments" is an analytical presentation of the balance of payments. In contrast to the neutral presentation, which has the structure that meets international standards, an analytical presentation makes it possible to encompass the economy's specifics and to group data in a way that reveals the most significant transactions. In particular, based on the balance of payments' information it is possible to identify (i) the total amount of financial resources attracted from nonresidents that is treated as a net increase in Russia's total foreign liabilities (investments in the Russian economy), and (ii) a net increase in Russia's foreign assets (net capital outflow abroad); classification of assets and liabilities by the sectors helps assess the effect of transactions performed by a particular sector on the country's balance of payments, etc.

Balance of payments data for previous years is revised mainly because of the updating of primary reports, the appearance of new information sources, and the improvement of methodology for individual indicators. Such an approach provides users of balance of payments statistics with access to the most exhaustive data that meets comparability requirements.

Balance of payments data for the reporting period are available on the Bank of Russia's Internet website and published (i) in the weekly print edition of the *Bank of Russia Bulletin*, (ii) in the mass media ("Rossiyskaya Gazeta", etc.), and (iii) in the IMF's "International Financial Statistics" and "Balance of Payments Statistics Yearbook".

Individual Indicators Highlights

1. Current account includes transactions in goods and services, primary income and secondary income.

1.1. Goods. Recorded under this item is the value of the goods, of which ownership was transferred within a reporting period from residents to nonresidents (exports) and from nonresidents to residents (imports). Apart from exports and imports of goods registered by the Federal Customs Service, the item involves the following transactions in goods that are not registered by the Federal Customs Service: (i) fish and marine products caught in the open sea and sold to nonresidents outside the customs border of the Russian Federation; (ii) goods procured in domestic/foreign ports by carriers; (iii) goods undeclared and/or inadequately declared when imported by legal entities; (iv) goods exported/imported by individuals for subsequent sale; (v) other goods, (vi) net exports of goods under merchanting.

Goods for and after processing are excluded from the Federal Customs Service data.

Exports and imports of goods are given in terms of f.o.b. values (the f.o.b. value is a delivery term, which implies that the value of the goods includes the transaction value as well as the value of delivery and loading on board the carrier at the border of an exporting country).

1.2. Services include services performed by residents for nonresidents and by nonresidents for residents. The services are sorted into the most significant kinds for Russia, such as transport, travel and others services including manufacturing services on physical inputs owned by others, maintenance and repair services, construction, insurance, financial, telecommunication, computer and information services, other business services, personal, cultural and recreational services, government services.

1.3. Primary income captures returns for the provision of labor and financial assets to nonresidents and renting of natural resources and vice versa.

The item "**Compensation of employees**" shows employee compensation earned by residents working abroad, and compensation earned by nonresidents employed in the Russian economy.

¹ **Economic transaction** is defined as an economic flow that reflects the creation, transformation, exchange, transfer or extinction of economic value and involves changes in ownership of goods and/or financial assets, or the provision of labour and capital.

Residents of a country incorporate all the institutional units, whose center of economic interest is located within the economic territory. All the other institutional units are regarded as nonresidents.

Institutional unit is an economic unit, which can own assets, assume liabilities, implement entire spectrum of economic transactions from its behalf. Individuals and legal entities, enterprises and organizations are treated as such units.

The economic territory of a country consists of the geographic territory (including free zones) administered by a government; within this territory, persons, goods and capital circulate freely.

An institutional unit has a center of economic interest within the country's economic territory, on which the unit engages and intends to continue engaging in economic activities and transactions on a significant scale.

Recorded under the item "**Investment income**" is income derived from a resident's ownership of foreign financial assets, i.e. receipts paid by nonresidents to residents on holdings of foreign assets (interest, dividends and other similar types of income) and vice versa.

"**Rent**" covers income receivable for the use of land and putting natural resources at the disposal of nonresidents and vice versa.

1.4. Secondary income shows current transfers between residents and nonresidents.

A transfer is an economic transaction resulting in provision by one institutional unit to another of a commodity, service, asset and ownership without any counterparts of a commodity, service, asset and ownership being received in return. Transfers are subdivided into current transfers and capital transfers. Transfers that can't be regarded as capital in accordance with the definition are treated as current transfers (for the definition of capital transfers see paragraph 2.1). Recorded as current transfers, are those that augment the disposable income and potential power of a recipient country's consumption, and reduce the disposable income and potential power of a donor country's (e.g., humanitarian aid in the form of consumer goods and services, and cash grants, unless the latter are capital transfers).

2. Capital account is comprised of capital transfers and acquisition or disposal of non-produced, nonfinancial assets.

2.1. Capital transfers result in changes in volume of recipient and donor's assets and liabilities (e.g., provision of ownership of a fixed capital without a quid pro quo, debt forgiveness). A provision of funds, when no counterpart is received in return, is treated as a capital transfer only when the funds are assigned for acquisition of fixed assets or capital construction.

2.2. Acquisition or disposal of non-produced, nonfinancial assets comprises transactions associated with tangible assets that may be used or necessary for production of goods and services but are not actually produced (e.g. land and subsoil assets) and transactions associated with nonproduced, intangible assets (e.g. patents, copyrights, trademarks, franchises, etc. and leases or other transferable contracts).

3. Financial account (excluding reserve assets). Recorded under this category are transactions in assets and liabilities performed by residents vis-a-vis nonresidents. Assets and liabilities are classified by sectors, namely, central bank, banks, general government and other sectors. The other sectors category is comprised of nonfinancial corporations, financial corporations (excluding banks), nonprofit institutions serving households (NPISHs) and households. Within these sectors investments are functionally classified as direct and portfolio investment, loans, and other assets and liabilities. Arrears of general government are not shown separately but are added to the respective instruments (loans, debt securities). Other sectors' data includes financial derivatives starting the fourth quarter of 2009. Assets of other sectors have the following additional breakdown: foreign currency, trade credits and advances, indebtedness on supplies according to intergovernmental agreements, fictitious transactions. The latter includes fictitious transactions related to trade in goods and services, securities trading and transactions with money transfers to resident's accounts abroad (since the first quarter of 2010), purpose of which is transferring of money abroad.

3.1. Direct investment is the form of international investment that is performed by a resident entity of one economy for the purpose of obtaining a lasting interest in an enterprise resident in another economy. The lasting interest implies the existence of a long-term relationship between the direct investor and the enterprise, and a significant degree of influence by the investor on the management of the enterprise. Direct investment comprises not only the initial transactions in acquiring participation in the equity, but also all subsequent transactions between the investor and the enterprise. According to the international definition of direct investment provided by the OECD, invested capital can be regarded as direct investment when a direct investor owns 10 percent or more of the ordinary shares of an enterprise. Direct investments are recorded in the form of equity capital, reinvested earnings and other capital.

3.2. Portfolio investment includes, in addition to equity capital, negotiable debt instruments in the form of bonds and

notes. Excluded are the aforementioned instruments included under direct investment and reserve assets.

3.3. Financial derivatives. A financial derivative contract is a financial instrument that is linked to another specific financial instrument or indicator, and through which specific financial risks can, in their own right, be traded in financial markets. They involve transactions such as options and forward contracts.

3.4. Other investment. Financial transactions that are not classified as direct investment, portfolio investment, financial derivatives and reserve assets, are included in other investment category.

4. Net errors and omissions. Labeled by some compilers as a balancing item or statistical discrepancy, this item is intended to offset the overstatement or understatement of the components recorded in the balance of payments.

5. Reserve assets include highly liquid financial assets of the Russian Federation that are at the disposal and under the control of the Bank of Russia and the General Government.

Comprehensive description of international reserve assets is given in the methodological comments to the table 1.13.

Table 1.5 Direct Investment of the Russian Federation (Based on the Balance of Payments, Flows Data)

Direct investment is a category of cross-border investment associated with a resident in one economy having control or a significant degree of influence on the management of an enterprise that is resident in another economy. Control or influence may be achieved directly by owning equity that gives voting power in the enterprise, or indirectly through having voting power in another enterprise that has voting power in the enterprise. With a view to providing international comparability for direct investment relationships identification quantitative criterion is used: ownership of 10 per cent or more of the voting power of the direct investment enterprise.

Starting with 2012 the Russian Federation's direct investment data are compiled on the basis of the methodology set out in the 6th edition of the IMF's Balance of Payments and International Investment Position Manual (BPM6) and the OECD Benchmark Definition of Foreign Direct Investment, the 4th edition (BMD4).

General Provisions

The table *Direct Investment of the Russian Federation* contains data on time series of direct investment in the Russian Federation and direct investment abroad broken down by sectors and instruments. Data on direct investment is a part of financial account and compiled according to the asset/liability principle. The table is published quarterly in millions of U.S. dollars.

Equity includes shares, stocks and other investment of foreign direct investors in equity of Russian enterprises as well as Russian direct investors in equity of foreign enterprises including financial aid.

Reinvested earnings are earnings of direct investment enterprises not distributed as dividends or profit.

Debt instruments are instruments that are used between investors and direct investor enterprises, as well as between fellow enterprises, including loans, debt securities and trade credits.

Sources of information comprise reports of Russian residents on international transactions. These returns are regularly provided to the Bank of Russia by credit institutions, non-banking custodians, other financial corporations, nonfinancial corporations, Ministry of Energy, as well as partner countries data and expert estimates.

Direct investment data are available on the Bank of Russia's official website and published in the weekly edition of the Bank of Russia Bulletin.

Individual Indicators Highlights

Russian Federation Direct Investment Abroad covers resident direct investors' claims to their direct investment enterprises, resident direct investment enterprises claims to direct investors and claims to non-resident fellow enterprises.

General government direct investment includes transactions in acquiring participation in the equity of foreign enterprises by the federal and local governments.

Direct investment of banks and Direct investment of other sectors include transactions related to increases/decreases in foreign assets in the form of equity, reinvestment of earnings and debt instruments.

Direct Investment in the Russian Federation covers liabilities of resident direct investment enterprises on their direct investors, resident direct investors on direct investment enterprises and liabilities of resident enterprises on non-resident fellow enterprises.

Direct investment of banks and Direct investment of other sectors include transactions related to increases/decreases in foreign liabilities in the form of equity, reinvestment of earnings and debt instruments.

Table 1.6

Net Inflows/Outflows of Capital by Private Sector (Based on the Balance of Payments, Flows Data)

General Provisions

The table "Net Exports/Imports of Capital by Private Sector" reports the value of an inflow (+)/outflow (—) of private sector capital in/from the Russian Federation during the reporting period. Here, the private sector implies the institutional units not relating to general government and monetary authorities.

The table is compiled quarterly and since 2007 also monthly, and it is based on the balance of payments data.

The table is available on the CBR's Internet website.

Individual Indicators Highlights

Net inflows/outflows of capital by the private sector for the reporting period reflects a balance of financial transactions recorded in the balance of payments and relating to banks and other sectors, and displays changes in its net assets.

Net inflows/outflows of capital by banks is computed as the sum of changes (with algebraic signs as they are in the balance of payments) in foreign assets and foreign liabilities of banks.

Foreign assets comprise transactions of credit institutions and of Vnesheconombank (net of the balance-sheet positions pertaining to the government foreign assets placed on the VEB's balance-sheet as of an agent of the Government of Russia).

Foreign liabilities cover transactions in all foreign obligations of banks.

Net inflows/outflows of capital by other sectors is calculated as the sum of changes (with algebraic signs as they are in the balance of payments) in foreign assets and foreign liabilities of nonfinancial corporations, financial corporations other than credit institutions, non-profit organizations serving households and households plus the value of "net errors and omissions" item of the balance of payments.

Foreign assets consist of transactions in the form of: direct and portfolio investment; trade credit; other assets, as well as transactions of these agents in cash foreign exchange and fictitious transactions. The balance of payments item "Indebtedness on supplies according to intergovernmental agreements" is not included.

Foreign liabilities incorporate transactions in all types of foreign liabilities of other sectors.

Net errors and omissions is the balance of payments item, commonly referred to as a statistical discrepancy, which results from the summing of all transactions (with negative and positive signs) registered in the balance of payments. This item entirely relates to other sectors — this is connected with the fact that the most significant difficulties arise from the recording in the balance of payments of transactions undertaken by these very sectors.

Table 1.7

External Debt of the Russian Federation

General Provisions

On the whole, this section reproduces the contents of the table "External Debt of the Russian Federation by Maturity and by Financial Instruments".

Structurally, the table focuses on the following economic sectors as main functional categories, namely: General government, Central bank, Banks, Other sectors.

Debt liabilities owed by banks and by other sectors to direct investors and to direct investment enterprises are recorded within these institutional categories.

Individual Indicators Highlights

The description of indicators "General government", "Central bank", "Banks" and "Other sectors" complies with that given in the commentary for the table "External Debt of the Russian Federation by Maturity and by Financial Instruments".

Table 1.8
**External Debt of the Russian Federation
in Domestic and Foreign Currencies by Maturity**

General Provisions

On the whole, this section reproduces the contents of the table "External Debt of the Russian Federation by Maturity and by Financial Instruments".

Total debt of the main sectors of the economy is presented in a breakdown by domestic currency and foreign currency and by maturity.

Debt liabilities owed by banks and by other sectors to direct investors and to direct investment enterprises are singled out under a separate data category.

Individual Indicators Highlights

The description of indicators "General government", "Central bank", "Banks" and "Other sectors" complies with that given in the commentary for the table "External Debt of the Russian Federation by Maturity and by Financial Instruments".

Table 1.9
**External Debt of the Russian Federation
by Maturity and Financial Instruments**

General Provisions

Data on external debt plays an important role in analyzing the external vulnerability of the national economy.

The data is elaborated by the Bank of Russia according to the definition of external debt found in the manual jointly developed by international organizations, namely, the *External Debt Statistics Guide for Compilers and Users (2003)*, which states that external debt as of the reporting date is the outstanding amount of those actual current (not contingent) liabilities, which are owed to non-residents by residents of an economy and which require payments of principal and/or interest at some point(s) in the future.

Calculation of external debt amount according to international methodology includes debt of all sectors of an economy vis-a-vis nonresidents, irrespective of which currency the debt is nominated in.

As follows from the definition, the key feature of debt is the obligation of a debtor to make payment of principal and/or interest, therefore, it excludes equity capital, derivatives, guarantees, open credit lines and other contingent liabilities.

General government debt securities are appraised at face value, while those of banks and other sectors are appraised at market value or — if it is not available — at nominal value.

Indebtedness on negotiable instruments is adjusted to transactions on the secondary market between residents and non-residents and covers only liabilities to the latter.

External debt data is compatible with other macroeconomic data systems within the economy (balance of payments, international investment position, statistics of national accounts) and on the international level.

Structurally, the table focuses on the following economic sectors as main functional categories:

- General government;
- Central bank;
- Banks (excluding debt liabilities to direct investors and to direct investment enterprises);
- Other sectors (excluding debt liabilities to direct investors and to direct investment enterprises);

— Banks and other sectors — debt liabilities to direct investors and to direct investment enterprises.

Each of these categories is subdivided into (i) *short-term* (with an original maturity of 1 year or less) and (ii) *long-term* (with a maturity of more than 1 year). Debt liabilities of each sector are classified by type of instrument. Debt liabilities owed by banks and by other sectors to direct investors and to direct investment enterprises are recorded under a separate data category.

Among the sources of information are reports of the Bank of Russia (CBR), Ministry of Finance of the Russian Federation (Minfin), Federal State Statistics Service, international financial organizations, local governments, credit institutions, Vnesheconombank (VEB), depository clearing systems, nonbank financial corporations, nonfinancial corporations and etc.

Data on Russia's external debt is available on the website of the Bank of Russia (www.cbr.ru), and is published in the mass media, i.e. *Rossiiskaya Gazeta* newspaper and the *Bank of Russia Bulletin*.

Individual Indicators Highlights

General government. This category includes external liabilities of the Russian Federal Government since 1992 (*the new Russian debt*), and that of the liabilities accumulated before 1992, for which the Russian Government assumed responsibility after the USSR's dissolution (*the former USSR debt*) as well as debt to nonresidents on loans drawn by local governments of the Russian Federation and on ruble-denominated bonds issued by them.

The new Russian debt consists of liabilities to nonresidents on loans, securities and other. Included are loans from the IBRD, EBRD, other international organizations and foreign governments, indebtedness to nonresidents on all sovereign eurobonds issued by the Russian Government including those issued in 1998 for the GKO—OFZs restructuring and those issued for the London Club debt restructuring. These obligations are not overdue. Other liabilities consist of other current debt.

Former USSR debt includes borrowings from former socialist countries, from other official creditors, collections, trade credits, overdue interest and interest on arrears which are recorded in other liabilities.

Debt securities. Debt vis-a-vis nonresidents on securities (nominated in foreign currencies and Russian rubles) issued by the General government and by local governments of Russia is included. Only non-resident holdings of government securities are reported. Data is presented at face value.

Loans item includes loans, attracted from nonresidents by the Russian Federal Government, local governments and by the former USSR.

Other debt liabilities include liabilities on current transactions of the Ministry of Finance, intergovernmental liabilities on clearing settlements, and remainders of arrears on letters of credit, overdue collections, trade credits, and interest on arrears which are recorded in other liabilities.

Central bank. A category that covers external debt liabilities of the Bank of Russia and the Ministry of Finance (liabilities to the IMF in form of loans granted to the Ministry of Finance were redeemed in Q2 2005; liabilities on SDR allocations are reflected on the Bank of Russia's balance since Q1 2011).

Loans. Contains external liabilities of the Bank of Russia on direct repos.

Currency and deposits consist of the debt of the Bank of Russia to nonresidents on current accounts. Also included is the Bank of Russia's estimate of the outstanding amount of national currency owned by nonresidents (description of the methodology of this estimate is available in the *Bank of Russia Bulletin*, and the balance of payments publication).

Other liabilities are liabilities on SDR allocations.

Banks (excluding debt liabilities to direct investors and to direct investment enterprises). Covers the debt of credit institutions (except for nonbanking credit institutions, recorded within "Other sectors") and Vnesheconombank (with respect to commercial activities of the latter) to nonresidents; external debt recorded by the VEB within the framework of its Russian Government agent functions is recorded in the liabilities of General government.

Debt securities. Includes indebtedness of banks to nonresidents on their own issues of debt securities.

Loans. Funds attracted by banks on securities repurchase agreements (direct repos) from nonresidents which are not banks are included.

Current accounts and deposits item includes indebtedness of banks to nonresidents on current accounts, short-term and long-term deposits as well as other funds obtained from nonresident banks and excludes liabilities on securities repurchase agreements (direct repos) to nonresidents which are not banks, recorded within "Loans".

Other liabilities. Contains other accounts payable to nonresidents.

Other sectors (excluding debt liabilities to direct investors and to direct investment enterprises). Covers foreign liabilities of other sectors.

Loans. Contains short-term and long-term loans along with direct repos and financial leases.

Debt securities. The item covers liabilities to nonresidents on issues of debt securities. Securities are accounted at market value. Included are bonds, promissory notes, nonparticipating preferred shares which don't provide participation in the distribution of the residual value of an incorporated enterprise on dissolution, as well as dividends payable on them and mortgage bonds purchased by nonresidents are included.

Trade credits. Consists of accounts payable to nonresidents for transactions in goods and services.

Other liabilities. The item covers liabilities to nonresidents on the amount of payable dividends on common shares related to portfolio investment, and liabilities of insurance companies.

Banks and other sectors — debt liabilities to direct investors and to direct investment enterprises. Includes loans and other capital obtained from foreign direct investors and direct investment enterprises and indebtedness on dividends payable.

**Table 1.10
International Investment Position of Russia
for 2001–2011: External Assets and Liabilities
at End of Period**

**Table 1.11
International Investment Position
of the Russian Federation for 2012**

General Provisions

International investment position (IIP) is a statistical statement that shows the value and composition of an economy's stock of external assets and liabilities at the beginning and at the end of a reporting period, as well as all changes that have occurred within the reporting period as a result of transactions, valuation changes, and other adjustments.

The IIP for Russia covers information for the Bank of Russia, deposit-taking corporations, General government (including data on government external assets and liabilities reported by Vnesheconombank), and other sectors.

The following data sources are used for Russia's IIP compilation: report forms of the Bank of Russia, data obtained from: Russia's Ministry of Finance, Federal Service for Property Management, Federal Customs Service, information from international financial organizations, local governments, credit institutions, Vnesheconombank, other financial corporations, non-financial corporations as well as the Bank of Russia's expert estimates.

Methodology for compilation of the IIP components is based on the sixth Edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*, 2009.

As interdependency of the world economy increases, the information derived from the IIP of Russia plays an important role in the design and development of both foreign and domestic economic policies. The economy's net international investment position (representing the difference between its foreign financial claims and foreign liabilities) allows to determine the status of Russia's external economic relations with other economies at a certain point in time. Depending on whether the international

investment position is positive or negative, the country is respectively, either a "net creditor" or a "net debtor" vis-a-vis the rest of the world.

Information provided in sections "Assets" and "Liabilities", in addition to enabling an assessment of the value of Russia's external claims and liabilities, also allows to analyze the composition thereof.

The international investment position of the Russian Federation is annually published in the Bank of Russia's weekly publication the *Bank of Russia Bulletin*, and is also available on the Bank of Russia's website.

Individual Indicators Highlights

Foreign assets and foreign liabilities of the economy's residents at a certain date (which, if netted, result in the net international investment position) are the major classification groupings presented in ***the left column of the table***.

Assets and liabilities, in turn, are classified by:

- functional category (direct investment, portfolio investment, financial derivatives, other investment, reserve assets);
- type of financial instrument (equity and investment fund shares, debt instruments of direct investment, debt securities, currency and deposits, loans, insurance, pension, and standardized guarantee schemes, trade credit and advances, other accounts receivable/payable, monetary gold, Special Drawing Rights, etc.);
- sector (central bank, deposit-taking corporations, except central bank, general government and other sectors that have additional breakdown into (1) *nonfinancial corporations, households, and NPISHs (nonprofit institutions serving households)* and (2) *other financial corporations*);
- maturity (short-term — refers to those with maturities of 12 month or less and long-term — refers to instruments with original maturities of more than 12 months).

Upper row of the table characterizes the stock of foreign assets/liabilities of Russia's residents at the beginning and at the end of the reporting period, as well as information on changes in foreign assets/liabilities in the breakdown specified below.

Changes arising from transactions reflect only those net changes in the foreign assets/liabilities, which have occurred as a result of transactions in these assets/liabilities. These transactions are included in the financial account of Russia's balance of payments.

Changes due to revaluation and other changes reflect changes (on a net basis), which are not arising from transactions and, therefore, not included in the balance of payments of Russia. *Changes due to revaluation* consist of net changes in assets/liabilities that result from exchange rate fluctuations and price changes. *Other changes* include all other changes in assets/liabilities (on a net basis) caused by: reclassification (e.g. change of functional category from portfolio investment to direct investment following an increase of an investor's share in equity capital of a direct investment enterprise), unilateral write-offs of debts by a creditor, debt write-offs resulting from accounts' reconciliation, and other changes.

Methodological principles used for compilation of the IIP of Russia are similar to those applied to balance of payments statistics, definitions of individual indicators are the same as those set forth in the comment to Table 1.4 "Balance of Payments of the Russian Federation".

Valuation of indicators

External assets and liabilities are measured mainly at market (fair) values, except for positions in trade credit and advances and loans related to General governments, which are recorded at book values that are higher than their market values; following negotiations between borrowers and their Paris Club creditors the amounts of specified claims are discounted.

Data on portfolio investment (including government securities) are presented at market values.

Trade credit and advances of other sectors include net balances on accounts receivable and payable with nonresidents related to exports and imports of goods. In the column "Other changes" of the line it is shown an accumulated debt write-off for the period preceding three last years.

Column "Other adjustments" includes, inter alia, assets and liabilities of credit institutions, whose licenses to conduct banking transactions were cancelled within the reporting period.

Table 1.12
International Investment Position
of the Banking Sector of the Russian Federation

General Provisions

International investment position (IIP) of the Banking sector of Russia — a component part of the IIP of Russia — is a statistical statement, which serves to assess the value of the stock of external assets and liabilities of the economy's Banking sector at the beginning or end of a reporting period, as well as all changes that occurred within the reporting period as a result of transactions, valuation changes (changes due to revaluation), and other adjustments.

The Banking sector's IIP, which is compiled by the Bank of Russia (CBR), is comprised of data on banks, including Vnesh-econombank (VEB).

Data sources used for compilation of the Banking sector's IIP are: (i) information on foreign transactions collected from authorized banks and VEB. Information provided by the Banking sector's IIP has significant importance in analyzing stability of the Banking sector and state of the economy as a whole.

Compilation methodology, valuation principles, and definitions for separate indicators of the Banking sector's IIP coincide with those applied to the IIP of the Russian Federation.

The "Assets" section of the table contains (i) data on the amount of foreign claims held by the Banking sector of Russia at the beginning and at the end of the reporting period, (ii) composition of the foreign claims and (iii) level of their liquidity. Based on the data available, it is possible to identify the factors that caused changes in assets during the reporting period.

Data contained in the "Liabilities" section make it possible to evaluate (i) size of the foreign liabilities, which the Banking sector accumulated at the beginning and at the end of the reporting period, and (ii) composition of those liabilities. Besides, data in this section reveal the major causes of changes in liabilities within the reporting period.

Depending on whether the Banking sector's net international investment position is positive or negative, this sector can be regarded as a "net creditor" or "net debtor" vis-a-vis nonresidents, respectively.

The international investment position of Russia's banking sector is published in the Bank of Russia's weekly publication the *Bank of Russia Bulletin* and is available on the Bank of Russia's website.

Individual Indicators Highlights

Foreign assets and foreign liabilities of the Banking sector on a specific date (which when netted result in the net international investment position) are the major classification groupings presented in ***the lines of the table***. The components singled out in the table's lines are identical to those in the financial account of balance of payments, namely, direct investment, portfolio investment, financial derivatives, other investment. More detailed information on these components is available in the comment to table "The Russian Federation Balance of Payments".

Columns of the table reflect the stock of foreign assets/liabilities of Russia's Banking sector at the beginning and at the end of the reporting period, as well as information on changes in foreign assets/liabilities in the breakdown specified below.

Changes due to transactions reflect only the net changes in the foreign assets/liabilities of Russia's Banking sector, which occurred as a result of transactions in these assets/liabilities. These transactions are included in the financial account of Russia's balance of payments.

Changes due to revaluation and other changes reflect changes (on a net basis), which are not regarded as transactions and, therefore, not included in the balance of payments of Russia. *Changes due to revaluation* cover net changes in assets/liabilities that result from exchange rate fluctuations and price changes. *Other changes* include all other changes in assets/

liabilities (on a net basis) caused by: (i) reclassification (e.g., the transition from portfolio investment to direct investment following an increase of an investor's share in equity capital of an enterprise), (ii) unilateral write-offs of debts by a creditor, (iii) write-offs resulting from reconciliation, (iv) other changes.

Total changes is an aggregate amount of net changes in assets/liabilities due to transactions, revaluation and other changes.

Valuation of indicators

The column "Other adjustments" includes assets and liabilities of credit institutions, whose licenses to carry out banking activities were cancelled within the reporting period.

**Table 1.13
The Russian Federation Merchandise Trade
(Based on the Balance of Payments Methodology)**

Beginning with 2012 the Russian Federation's merchandise trade data are compiled on the basis of the methodology set out in the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*.

Conceptually, BPM6 maintains the overall framework of the methodology of the previous (fifth) edition of the Manual (BPM5).

General Provisions

The table "The Russian Federation Merchandise Trade" includes monthly data on the merchandise trade of the Russian Federation with a geographical breakdown by (i) Commonwealth of Independent States member countries (CIS-countries) and (ii) non-CIS countries. The data are presented in millions of U.S. dollars and valued in accordance with the goods values converted into f.o.b. (a definition of the f.o.b. value is provided in commentary to table "The Russian Federation Balance of Payments", "Goods" section).

Data provided in the table "The Russian Federation Merchandise Trade" are included in the current account of the balance of payments and are compiled in accordance with the IMF's methodology.

The table's sources of information are the following:

- reporting data on exports/imports of goods recorded by the Federal Customs Service with customs procedures singled out separately;
- reporting data by the Federal State Statistics Service on: (i) exports of fish and marine products caught in open sea and sold outside the customs border of the Russian Federation;
- data from credit institutions' reports;
- reporting data by the major exporting enterprises;
- partner country data on selected items.

Data on merchandise trade are published in the Bank of Russia's weekly publication the *Bank of Russia Bulletin*, and are available on the Bank of Russia's website.

Individual Indicators Highlights

Exports of Goods (balance of payments methodology) is the movement of (i) goods out of the customs territory of the Russian Federation recorded by the Federal Customs Service in accordance with the general trade system, and (ii) goods not registered by the Federal Customs Service — namely, fish and marine products caught in open sea and sold to nonresidents outside the customs border of the Russian Federation, goods procured by foreign carriers in Russian ports, goods exported by individuals for the subsequent selling, and other goods, net exports of goods under merchanting.

Goods for and after processing are excluded from the Federal Customs Service data.

Imports of Goods (balance of payments methodology) covers (i) goods brought into the Russian customs territory and recorded by the Federal Customs Service in compliance with the general trade system, and (ii) goods not registered by the Federal Customs Service — namely, goods acquired from nonresidents without crossing Russia's customs border, goods procured by Russian carriers in foreign ports, goods undeclared and/or inadequately declared when imported by legal entities,

goods imported by individuals for the subsequent selling in Russia, and other goods.

Goods for and after processing are excluded from the Federal Customs Service data.

Trade balance is defined as the difference between exports and imports of goods.

**Table 1.14
International Reserves of the Russian Federation**

General Provisions

A country's international reserves are those external assets that are readily available to and controlled by monetary authorities for meeting balance of payments financing needs, for intervention in exchange markets to affect the currency exchange rate, and for other related purposes (such as maintaining confidence in the currency and the economy, and serving as a basis for foreign borrowing). Reserve assets must be foreign currency assets and assets that actually exist. International reserves should be assets of high quality.

The international reserves of the Russian Federation are highly liquid external assets that are readily available to the Bank of Russia and the Government of the Russian Federation.

Data are compiled on the basis of definitions contained in the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)*, and the IMF's *International Reserves and Foreign Currency Liquidity: Guidelines for a Data Template (2012)*.

Transactions are recorded as of the value date with interest accrued.

Values are converted to US dollars using official exchange rates of foreign currencies in terms of the Russian ruble and gold reference prices set by the Bank of Russia and effective on the reporting date.

The Bank of Russia regularly publishes the data on the stock and the structure of international reserves, the estimations of its predetermined drains and also the metadata on the Bank of Russia's website, in the *Bulletin of Banking Statistics* and the *Bank of Russia Bulletin*. There are also quarterly published data on the IIP, disclosing the international reserves changes: transactions recorded in the balance of payment, exchange rate and other price changes.

Individual Indicators Highlights

The international reserves consist of foreign exchange, SDR holdings, reserve position in the IMF and monetary gold.

Foreign exchange includes foreign currency; balances on nostro corresponding accounts including unallocated gold accounts; deposits with the initial maturity of up to 1 year including gold deposits, with foreign central banks, the Bank for International Settlements (BIS) and nonresident deposit-taking corporations; debt securities issued by nonresidents; loans extended under reverse repo agreements, and other financial claims on nonresidents with the initial maturity of up to 1 year.

Securities received as collateral under reverse repos or under securities' lending agreements (received in exchange for other securities), are not included in international reserves. Securities provided to counterparties under securities' lending transactions are recorded in international reserves, whereas securities that serve as collateral under repurchase agreements are excluded therefrom.

Part of resources on accounts of the Reserve Fund and of the National Wealth Fund of the Russian Federation which is denominated in foreign exchange, deposited with the Bank of Russia and further invested by the Bank of Russia in foreign financial assets is included in the international reserves of the Russian Federation.

Foreign exchange-denominated claims of the Bank of Russia and the Government of the Russian Federation on residents are not included in the international reserves of the Russian Federation.

Special drawing rights (SDRs) are international reserve assets created by the IMF and allocated to members; included are balances of SDR holdings on the account of the Russian Federation in the Fund's SDR Department.

Reserve position in the IMF is the sum of the reserve tranche position (representing foreign exchange component of the quota of the Russian Federation in the Fund) and the country's claims on the IMF arising from lending under the New Arrangements to Borrow.

Monetary gold is defined as standard gold bars and coins with a purity of at least 995/1,000 held by the Bank of Russia and the Government of the Russian Federation. It comprises gold in vault, en route and in allocated accounts, including those that are held abroad.

Chart 7.1. International Reserves Adequacy (International Reserves in Months of Import)

Reserves adequacy is determined by comparison of the actual amount of the international reserves in months of imports of goods and services and the international benchmark reserves adequacy.

The international benchmark reserves adequacy is equal to three months.

The actual amount of the international reserves in months of imports is calculated as the ratio of the amount of the international reserves of the Russian Federation at the end of the reporting quarter to the average monthly import of goods and services in the reporting quarter and three preceding ones.

For example, the actual amount of the international reserves in months of imports for the first quarter of 2010 will be the ratio of the amount of the international reserves of the Russian Federation on April 1, 2010 to the average monthly import of goods and services for the period II—IVQ 2009 — IQ 2010.

The indicator is disclosed on a quarterly basis no later than four months after the end of the reporting quarter.

**Table 1.15
International Reserves and Foreign Currency Liquidity — Russia**

General Provisions

The template recommended by the IMF is meant to provide exhaustive information on the official assets of the Russian Federation in foreign currency and movements of these resources related to different claims and obligations of monetary authorities in foreign currency for the 12 months following the reporting date. In the template data is presented on balance and off-balance sheet transactions of monetary authorities in foreign currency, and supplementary information.

Data is published in terms of millions of U.S. dollars. Foreign exchange assets are converted to U.S. dollars using cross exchange rates of foreign currencies for the U.S. dollar as of the given date.

Blank fields in the tables signify the absence of respective financial instruments as of the reporting date.

Data sources for International Reserves and Foreign Currency Liquidity are: balance sheet and off-balance sheet data of the CBR, operational reports of the CBR and Minfin of Russia.

Individual Indicators Highlights

Section I Official Reserves and Other Foreign Currency Assets provides information on the structure of Russia's international reserves as well as data on the non-reserve foreign exchange assets of monetary authorities. Comprehensive description of international reserves is given in the methodological comments to the table "International Reserves of the Russian Federation". Other foreign currency liquidity represents assets of the Bank of Russia and Minfin of Russia that do not meet the requirements for international reserves. Unlike reserve assets, non-reserve assets do not need to be external assets. They can be claims on residents.

Section II Predetermined Short-term Net Drains on Foreign Currency Assets describes the main directions of expenditure of foreign currency and sources of inflows of foreign currency.

Section III **Contingent Short-term Net Drains on Foreign Currency Assets** involves information on forthcoming changes in foreign exchange reserves of the Bank of Russia and Minfin of Russia as a result of exercising contingent assets and liabilities with remaining maturities of one year and transactions in options.

Reference data in Section IV **Memorandum Items** provides an explanation of the indicators recorded in Section I, reserves' currency composition by groups of currencies being disclosed.

Central Bank Survey, Credit Institutions Survey, Banking System Survey, Insurance Companies and Private Pension Funds Subsector Survey, Financial Sector Survey

Central Bank Survey, Credit Institutions Survey, Banking System Survey, Insurance Companies and Private Pension Funds Subsector Survey, Financial Sector Survey are compiled in accordance with the international statistical standards on macroeconomic indicators (Monetary and Financial Statistics Manual (IMF, 2000) under which monetary indicators are presented across financial instruments and economy sectors. This data presentation is applicable for an analysis of money supply and its structure, and the relationships of financial intermediaries with other sectors of the Russian economy also as with nonresidents. The Central Bank Survey, Credit Institutions Survey and Banking System Survey are published by the Bank of Russia on a monthly basis while the Insurance Companies and Private Pension Funds Subsector Survey and Financial Sector Survey are published quarterly.

**Table 1.16
Central Bank Survey**

General Provisions

The Bank of Russia's monthly aggregate balance sheet and the Minfin's data on international reserves of the Russian Federation government are the sources of information used to compile the "Central Bank Survey".

Individual Indicators Highlights

Net foreign assets — netting of transactions made by monetary authorities with nonresidents in national and foreign currency and precious metals.

Claims on nonresidents include international reserves of the Russian Federation government (see comments to the table: "International Reserves of the Russian Federation") and less liquid nonreserve assets. The nonreserve assets in this table represent other assets of the Bank of Russia placed with nonresidents¹, particularly, assets denominated in a limited conversion and the Russian Federation currencies, and long-term credits and deposits also in convertible currency. Claims on nonresidents are presented across *monetary gold* and *SDR holdings*, *foreign currency*, *deposits*, *securities other than shares*, *loans* and *other claims on nonresidents*.

Liabilities to nonresidents include all types of the Bank of Russia's borrowings with nonresidents (deposits, correspondent accounts of nonresident banks with the Bank of Russia, credits, other settlements with nonresident companies, etc.) as well as SDRs allocated to the Russian Federation. This indicator is presented across the *deposits*, *loans* and *other liabilities to nonresidents*.

Claims on credit institutions comprise loans extended by the Bank of Russia to credit institutions (including banks with revoked licenses), credit institutions' arrears and overdue interest on loans, funds extended by the Bank of Russia to credit institutions as REPO, and the Bank of Russia capital interest in credit institutions.

Net claims on general government include the Bank of Russia's claims on the Russian Federation government, fiscal authorities of the RF constituent entities and local authorities,

¹ Definitions of nonresidents and residents here and in "Credit Institutions Survey," "Banking System Survey," "Insurance Companies and Private Pension Funds Subsector Survey", "Financial Sector Survey" correspond to similar definitions in the balance of payments statistics — see comments on the "Balance of Payments" table.

government extrabudgetary funds and extrabudgetary funds of the RF constituent entities and local authorities less the Bank of Russia's liabilities to the general government.

Claims on general government are presented across *securities* (issued by the Russian Federation government and acquired by the Bank of Russia) and *other claims* (other Bank of Russia's accounts receivable due from the budget).

Liabilities to general government are presented across deposits (federal budget accounts, the budgets of the RF constituent entities and local authorities, deposits and other liabilities to the RF government, fiscal authorities in the RF constituent entities and local authorities, government extrabudgetary funds, extrabudgetary funds of the RF constituent entities and local authorities) and other liabilities (other Bank of Russia's accounts payable to the budget, and a contra entry of international reserves of the Russian Federation government).

Claims on other sectors include the Bank of Russia's claims on other financial institutions¹, public nonfinancial organizations and other nonfinancial institutions².

Claims on other financial institutions include the Bank of Russia's equity in other financial institutions.

Claims on public nonfinancial organizations comprise credits (including overdue debt), overdue interest on credits extended to public nonfinancial organizations.

Claims on other nonfinancial organizations comprise credits (including arrears), overdue interest on credits extended to other nonfinancial organizations, and other receivables in settlements with nonfinancial organizations.

Monetary base includes cash in circulation and the Bank of Russia's liabilities to credit institutions denominated in national currency (see also the comment to the table "Monetary Base (Broad Definition)").

Currency in circulation comprises currency issued by the Bank of Russia less cash in its vaults.

Liabilities to credit institutions are presented across *deposits* (required reserves deposited by credit institutions with the Bank of Russia, correspondent accounts, and account balances of other operations of credit institutions' (including banks with revoked licenses) with the Bank of Russia) and *securities other than shares* (the Bank of Russia bonds in the portfolios of credit institutions (at market value)).

Other liabilities to credit institutions include funds held by the Russian Federation resident credit institutions at the Bank of Russia, comprising funds in foreign currency, which are excluded from the monetary base.

Deposits included in broad money comprise all funds held by the Russian Federation resident organizations in the Bank of Russia under the current legislation. Deposits are classified by the level of liquidity as transferable deposits (including funds which can be immediately used as means of payment) and other deposits (comprising resident organizations' deposits that are not directly used as means of payment).

Transferable deposits include current and other demand accounts in national currency opened by Russian Federation resident organizations in the Bank of Russia.

Other deposits include the Russian Federation resident organizations' time deposits and other funds in national currency attracted by the Bank of Russia, also all types of deposits in foreign currency, and all interest accrued on deposit operations.

Data on transferable and other deposits are presented across the institutional sectors. These **deposits** include ones of **other financial institutions, public nonfinancial organizations and other nonfinancial organizations**.

Shares and other equity include the authorized and supplementary capital, the reserves and other funds of the Bank of Russia.

Other items (net) comprise assets and liabilities, which are not included in the above mentioned aggregates.

Other liabilities represent unrealized revaluation of foreign currency, precious metals and securities, current-year result, Bank of Russia retained earnings, deferred revenues, fixed asset

depreciation, interbranch balance of settlements, and the Bank of Russia's other accounts payable.

Other assets include deferred expenditures, fixed assets, capital investments and other administrative expenses.

Table 1.17 Credit Institutions Survey

General Provisions

The sources of information for compiling the "Credit Institutions Survey" table are monthly balance sheets of credit institutions (excluding branches of Russian credit institutions abroad) and credit institutions with revoked licenses, balance sheets of the branches of foreign banks located in the Russian Federation, the balance sheet of Vnesheconombank (public corporation).

Individual Indicators Highlights

Net foreign assets — netting all transactions in assets and liabilities made by credit institutions with nonresidents in foreign and national currency and precious metals.

As opposed to the balance of payments statistics nonresidents' equity in Russian credit institutions capital, reinvested earnings in nonresidents' equity and dividends aren't included in "Net foreign assets". These components are constituent parts of "Shares and other equity" in the Credit Institutions Survey.

Besides mentioned methodological discrepancies specified by international statistical standards "Net foreign assets" of the monetary statistics is largely consistent with the balance of payments ones. Data divergence may be caused by different information sources (credit institutions' balance sheets and statistical reports accordingly). To ensure data quality discrepancies are screened on a regular basis.

Claims on nonresidents — all transactions in assets made by credit institutions with nonresidents and presented across the following financial instruments: *foreign currency* — cash in foreign currency in credit institutions' vaults; *deposits* — deposits and other funds, including correspondent accounts in nonresident banks in foreign currency and national currency and precious metals; since December 2011 — also loans to nonresident banks; *securities other than shares* — debt securities and bills issued by foreign governments, banks and other nonresidents; *credit and loans* — loans extended to non-banks — nonresidents (till December 2011 — also included loans extended to nonresident banks); *other claims* — investments in shares of foreign companies and banks, funds in settlements with nonresident legal entities and other transactions with nonresidents.

Liabilities to nonresidents include all transactions in liabilities made by credit institutions with nonresidents and present across the following financial instruments: *deposits* — balances on LORO accounts and other funds attracted from nonresident banks, deposits and other funds attracted from nonresident individuals and legal entities in foreign and national currency and precious metals, including interest accrued; since December 2011 — also loans from nonresident banks; *securities other than shares* — nonresident investments in Russian credit institutions debt securities; *credit and loans* — funds attracted as REPO and other funds from non-banks — nonresidents (till December 2011 — also included loans from nonresident banks); *other liabilities* — other transactions with nonresidents, including liabilities on letters of credit and other settlements with nonresident legal entities.

Claims on the central bank are presented across the following financial instruments: *cash* — cash in national currency in credit institutions' vaults; *deposits* — credit institutions' funds on accounts with the Bank of Russia (balances on correspondent accounts, required reserves, deposits, balances on accounts of other transactions); *securities other than shares* — credit institutions' investments in the Bank of Russia bonds (valued at market price).

¹ Hereinafter financial organizations are the nonbanking financial intermediaries. These are the organizations that fulfill financial functions for the purpose of money accumulation and redistribution. They comprise investment funds, trust, leasing and factoring companies, commodity and stock exchanges, brokerage firms operating on the stock market, insurance companies, nongovernmental pension funds, the public corporation "Deposit Insurance Agency".

² Hereinafter nonfinancial organizations are the ones engaged in production and selling goods and services and not related to the financial sector.

Net claims on general government include the credit institutions' claims on the RF government, fiscal authorities of the RF constituent entities and local authorities, the RF government, constituent entities and local authorities extrabudgetary funds less the credit institutions' liabilities to the general government.

Claims on general government are presented across the following financial instruments: *securities* – the RF government securities, RF constituent entities and the local authorities securities held in the Bank of Russia portfolio; *other claims* – credits extended to the RF government, fiscal authorities of the RF constituent entities and local authorities, the RF government and constituent entities extrabudgetary funds and credit institutions' other accounts receivable to the budget.

Liabilities to general government are presented across the following financial instruments: *deposits* – deposits and other funds attracted from the RF government, fiscal authorities of the RF constituent entities and local authorities, the RF government, constituent entities and local authorities extrabudgetary funds including balances on accounts of the federal budget, budgets of the RF constituent entities and local authorities; *other liabilities* – credit institutions' other accounts payable to the budget.

Claims on other sectors include credit institutions' claims on other financial institutions, public nonfinancial organizations, other nonfinancial organizations and households.

Claims on other financial institutions comprise funds of other financial institutions, regardless of their type of property on the accounts of credit institutions, and credits extended to these institutions.

Claims on public nonfinancial organizations comprise credits (including arrears), overdue interest on credits extended to public nonfinancial organizations in national and foreign currency.

Claims on other nonfinancial organizations comprise credits (including arrears), overdue interest on credits extended to other nonfinancial organizations in national and foreign currency and precious metals, credit institutions' investments in the debt securities of nonfinancial organizations, investments in shares and other equity of nonfinancial organizations, and other accounts receivables from nonfinancial organizations.

Claims on households comprise credits (including arrears), overdue interest on credits extended to individuals and individual entrepreneurs in national and foreign currency and precious metals.

Liabilities to central bank include credit institutions' debt on credits extended by the Bank of Russia (including arrears and overdue interest), and also funds extended by the Bank of Russia to credit institutions as REPO.

Deposits included in broad money comprise all funds held by the Russian Federation residents (legal entities and households) on operating credit institutions' accounts. Deposits are classified by the level of liquidity as transferable deposits (including funds, which can be used immediately as means of payment) and other deposits of the Russian Federation residents (that are not used directly as means of payment).

Transferable deposits include funds held by the Russian Federation residents (legal entities and households) in settlement, current and other demand accounts (including bank card payment accounts) opened with operating credit institutions in national currency.

Other deposits include the Russian Federation residents (legal entities and households) time deposits and other funds held in national currency, deposits denominated in all kinds of foreign-currency and in precious metals, including accrued interest on the deposits.

Data on transferable deposits and other deposits are broken down by the institutional sectors. Transferable and other **deposits** include ones of **other financial institutions**, ones of **public nonfinancial organizations**, ones of **other nonfinancial organizations** and **households' ones**.

Deposits excluded from broad money – the Russian Federation residents' funds on credit institutions' accounts, which are excluded from broad money in accordance with the definition. This indicator includes amounts on credit institutions' accounts which cannot be used during a certain period according to terms of contract or current terms of the credit institution's activities (e.g.: clients' accounts reserved for conducting trans-

actions in purchase/sale of hard currency, clients' funds related to incomplete settlement operations, and also all deposits of Russian Federation residents with banks with revoked licenses).

Securities other than shares excluded from broad money comprise financial instruments issued by credit institutions and representing similar money substitutes, i.e. bonds, deposit and saving certificates, bills and bank acceptances circulating outside the banking system.

Shares and other equity are the own funds of credit institutions. They include authorized and supplementary capital, special, reserve and other funds formed through profits, results of revaluation of securities, precious metals and funds in foreign currency, current year financial results and profits and losses of previous years.

Other items (net) comprise assets and liabilities which are not included in the above mentioned aggregates, and consolidation adjustment.

Other liabilities comprise deferred income, provisions for losses on active transactions, fixed assets depreciation, and also credit institutions' other accounts payable.

Other assets include fixed assets, capital and other administrative expenses, gold and other precious metals reserves and deferrals.

Consolidation adjustment represents the differences in credit institutions' mutual liabilities and mutual claims.

Table 1.18
Banking System Survey

General Provisions

The "Banking System Survey" presents results of the consolidated data of the banking system (see "Central Bank Survey" and "Credit Institutions Survey"). The consolidation is made by subtracting the intersectoral claims and liabilities between credit institutions and the Bank of Russia and summing up their operations with other sectors of the economy and nonresidents). The monthly balance sheet of the Bank of Russia, the monthly aggregate balance sheet of credit institutions (excluding branches of Russian credit institutions abroad), balance sheets of the foreign banks branches located in the Russian Federation, the balance sheet of Vnesheconombank, and the Minfin's data on international reserves are the sources of information used to compile the "Banking System Survey".

Individual Indicators Highlights

Net foreign assets comprise assets and liabilities transactions made by monetary authorities and credit institutions with nonresidents in national and foreign currency and precious metals.

Claims on nonresidents include foreign assets of monetary authorities and credit institutions.

Liabilities to nonresidents include all types of liabilities of monetary authorities and credit institutions to nonresidents.

Domestic claims comprise the total amount of the banking system's claims on other financial institutions, nonfinancial public organizations, other nonfinancial organizations and households, and net claims on the general government in the national and foreign currency and precious metals.

Net claims on general government represent the banking system's claims on the Russian Federation government, fiscal authorities of the RF constituent entities and local authorities, government and other extrabudgetary funds less the banking system's liabilities to general government.

Claims on general government include the banking system's investments in securities issued by the Russian Federation government, constituent entities and local authorities, credits and other accounts receivable of the Bank of Russia and credit institutions with general government.

Liabilities to general government include funds of the federal budget, the RF constituent entities' budgets, deposits and other funds attracted by the banking system with general government of the Russian Federation, fiscal authorities of the RF constituent entities and local authorities, government and other extrabudgetary funds.

Claims on other sectors include claims of banking system institutions on other financial institutions, public nonfinancial organizations, other nonfinancial organizations and households.

Claims on other financial institutions comprise funds transferred by the banking system to other financial institutions, credits extended to these institutions, and the banking system's equity in other financial institutions.

Claims on public nonfinancial organizations comprise credits (including arrears), overdue interest on credits extended by the banking system to public nonfinancial organizations in national and foreign currency.

Claims on other nonfinancial organizations comprise credits (including arrears), overdue interest on credits extended by the banking system to public nonfinancial organizations in the national and foreign currency and precious metals, investments in the debt and equity securities of nonfinancial organizations and other accounts receivable.

Claims on households comprise credits (including arrears), overdue interest on credits extended by the banking system to individuals and individual entrepreneurs in the national and foreign currency and precious metals.

Broad money liabilities¹ include currency outside the banking system and non-cash funds of the Russian Federation residents (organizations and individuals) classified by the level of liquidity as transferable deposits (comprising funds that can be immediately used as means of payment), and other deposits (comprising resident organizations' deposits that are not directly used as means of payment).

Currency outside banking system includes currency issued by the Bank of Russia into circulation less currency holdings (cash vaults) of the Bank of Russia and credit institutions.

Transferable deposits include current and other demand accounts (including bank card payment accounts) opened by the Russian Federation residents (organizations and individuals) with the Bank of Russia and operating credit institutions in national currency.

Other deposits include the Russian Federation residents (organizations and individuals) time deposits and other funds in national currency attracted by the Bank of Russia and operating credit institutions, and also all types of deposits in foreign currency, precious metals accounts, and interest accrued.

Data on transferable and other deposits are presented across the institutional sectors. These **deposits** include ones of **other financial institutions, public nonfinancial organizations, other nonfinancial organizations and households**.

Deposits excluded from broad money represent funds of the Russian Federation residents on accounts with credit institutions, which in accordance with the definition are not included in money supply.

Securities other than shares excluded from broad money comprise financial instruments issued by credit institutions that are close on money substitutes (bonds, deposit and saving certificates, bills and bank acceptances outside the banking system).

Shares and other equity are own funds of banking system organizations.

Other items (net) comprise assets and liabilities which are not included in the above mentioned aggregates and consolidation adjustment.

Other liabilities represent the sum of the respective aggregates in the tables "Central Bank Survey" and "Credit Institutions Survey".

Other assets represent the sum of the respective aggregates in the tables "Central Bank Survey" and "Credit Institutions Survey."

Consolidation adjustment represents the amount of differences in mutual liabilities and claims of the Bank of Russia and credit institutions.

Table 1.19
Money Supply (National Definition)

General Provisions

The table "Money Supply (National Definition)" contains information on the amount, structure and dynamics of the M2

aggregate, a major monetary aggregate used in elaborating the economic policy and setting quantitative macroeconomic targets. The money supply is defined as the sum total of funds in the Russian Federation currency, intended for use as payment for goods, work and services and for the accumulation of savings by resident nonfinancial organizations and financial institutions (except for credit ones) and households.

The source of information for the calculation of the money supply is data of the monthly consolidated balance sheet of Russian credit institutions and the Bank of Russia consolidated balance sheet (the calculation includes obligations of credit institutions and the Bank of Russia to economic agents). In addition to being published in the Bulletin of Banking Statistics, information on the amount, structure and dynamics of the money supply is available on the Bank of Russia home page in the Internet.

Individual Indicators Highlights

Cash in circulation (M0 monetary aggregate) is the most liquid part of the money supply, accessible for immediate use as a mean of payment. It includes banknotes and coins in circulation (see the indicator "Currency outside banking system" in the table "Banking System Survey").

M1 monetary aggregate is a sum of cash in circulation and balances in the domestic currency on current and other demand accounts (including bank card payment accounts) and interest accrued of nonfinancial organizations, financial institutions (except for credit ones) and households in rubles.

Money supply (M2) is a sum of cash in circulation and balances in the domestic currency on current, other demand accounts (including bank card payment accounts), time deposits and interest accrued of nonfinancial organizations, financial institutions (except for credit ones) and households. The money supply in the national definition includes all cash and non-cash funds of resident nonfinancial organizations and financial institutions (except for credit ones) and households in rubles.

Non-cash funds include transferable deposits and other deposits. Data on transferable and other deposits are presented across the institutional sectors. These deposits include ones of nonfinancial organizations, financial institutions (except for credit ones) and households.

Transferable deposits include current and other demand accounts (including bank card payment accounts) and interest accrued of nonfinancial organizations, financial institutions (except for credit ones) and households.

Other deposits include time deposits and interest accrued of nonfinancial organizations, financial institutions (except for credit ones) and households.

Unlike the indicator "Broad money liabilities" in the table "Banking System Survey", non-cash funds do not include foreign currency deposits.

Non-cash funds that are accounted for in similar accounts in credit institutions whose licence has been revoked are not included in the M2 monetary aggregate.

Table 1.20
Monetary Base (Broad Definition)

General Provisions

Table "Monetary Base (Broad Definition)" presents information on the volume, structure and dynamics of the monetary base. This indicator characterizes the ruble-denominated monetary obligations of the Bank of Russia, which ensure growth in the money supply. The monetary base is not a monetary aggregate but it serves as a basis for creating monetary aggregates, and therefore it is also called "high-powered money".

The monetary base (broad definition) comprises cash put into circulation by the Bank of Russia, including cash balances in bank vaults, balances in the required reserve accounts deposited by credit institutions with the Bank of Russia, funds in credit institutions' correspondent accounts denominated in rubles (including averaged amount of the required reserves) and deposit accounts with the Bank of Russia, credit institutions' investments

¹ Equivalent to the indicator "Broad money".

in the Bank of Russia bonds (market value). The Monetary Base (the table "Central Bank Survey") is calculated just as the monetary base (broad definition).

The source of information used in calculating the monetary base (broad definition) is data from the Bank of Russia monthly consolidated balance sheet. In addition to the *Bulletin of Banking Statistics*, data on the volume, structure and dynamics of the monetary base (broad definition) can be found in the Bank of Russia home page on the Internet.

Individual Indicators Highlights

All elements of the monetary base (broad definition) are calculated in the Russian currency only.

Cash in circulation, including cash balances in bank vaults, is calculated as a sum of Cash (see table "Money Supply (National Definition)" and cash balances in bank vaults, excluding cash in the Bank of Russia establishments' cash vaults as well as coins made of precious metals in circulation.

Correspondent accounts balances of credit institutions with the Bank of Russia are balances in the currency of the Russian Federation, including averaged amount of the required reserves (see also comments on tables 2.3—2.5).

Required reserves are balances in the required reserve accounts deposited by credit institutions with the Bank of Russia against their attracted funds in the currency of the Russian Federation and in foreign currency (see also comments on tables 2.3—2.5).

**Table 1.21
Other Financial Institutions Survey**

General Provisions

Other Financial Institutions Survey is compiled according to the international statistical standards on macroeconomic indicators (Monetary and Financial Statistics Manual (IMF, 2000) and contains data which illustrate the relations between insurance companies, private pension funds, public financial corporations (since December 2012) and other sectors of the economy and nonresidents. The source of information used in compiling Other Financial Institutions Survey is the data of federal statistical forms No. 1-FS (SK) "Insurance Company Borrowings and Investments" and No. 1-FS (NPF) "Private Pension Fund Financial Operations" quarterly reported by insurance companies and private pension funds to the Bank of Russia and the quarterly data of public financial corporations (since December 2012).

Individual Indicators Highlights

Net foreign assets — netting all transactions in assets and liabilities made by insurance companies, private pension funds and public financial corporations with nonresidents.

Claims on nonresidents — all transactions in assets made by insurance companies, private pension funds and public financial corporations with nonresidents: *foreign currency* — cash in foreign currency held by insurance companies and private pension funds; *deposits* — deposits with nonresident banks; *securities other than shares* — investments by insurance companies, private pension funds and public financial corporations in debt securities, *credits and loans* — loans extended to nonresidents; *other claims on nonresidents* — other operations, including investments in shares issued by nonresidents, premium deposit for reinsurers-nonresident, share of reinsurers-nonresidents in insurance reserves and other accounts receivable from nonresidents.

Liabilities to nonresidents include all transactions in liabilities made by insurance companies, private pension funds and public financial corporations with nonresidents: *credits and loans* — credits and loans received by insurance companies, private pension funds and public financial corporations from nonresidents; *other liabilities to nonresidents* — other liabilities of insurance companies, private pension funds and public financial corporations, including insurance reserves formed under insurance and reinsurance agreements with nonresidents and debt on reinsurance operations with nonresidents.

Claims on banking system include *cash* — cash in the currency of the Russian Federation held by insurance compa-

nies, private pension funds and public financial corporations; *other instruments* — funds on current accounts, deposits and other accounts with credit institutions, investments in the shares and debt securities of credit institutions, investments in certificates of deposit, and also loans extended to credit institutions.

Net claims on general government include claims of insurance companies, private pension funds and public financial corporations on the Russian Federation government, constituent entities and local authorities, government and other extra-budgetary funds less the liabilities of insurance companies, private pension funds and public financial corporations to general government.

Claims on general government include insurance companies, private pension funds and public financial corporations' investments in the securities of the government of the Russian Federation, the RF constituent entities and local authorities.

Liabilities to general government include insurance reserves formed under agreements with government of the Russian Federation, the RF constituent entities and local authorities, and loans extended to insurance companies by general government.

Claims on other sectors — claims of insurance companies, private pension funds and public financial corporations on other groups of financial institutions, nonfinancial organizations and households.

Claims on other financial institutions include insurance companies, private pension funds and public financial corporations' investments in debt securities and shares of other financial institutions, except for insurance companies, private pension funds and public financial corporations, settlement accounts with asset management companies, investments in mutual funds shares and loans extended to other financial institutions, except for insurance companies, private pension funds and public financial corporations.

Claims on nonfinancial organizations include insurance companies, private pension funds and public financial corporations' investments in debt securities and shares issued by nonfinancial organizations and loans extended to nonfinancial organizations.

Claims on households include loans extended by insurance companies, private pension funds and public financial corporations to households.

Securities other than shares comprise bonds and bills issued by insurance companies and public financial corporations.

Loans include credits and loans received by insurance companies, private pension funds and public financial corporations from government of the Russian Federation, credit institutions, other financial institutions, nonfinancial organizations and households.

Insurance technical reserves comprise insurance reserves of insurance companies, public financial corporations, accumulated to cover the claims of resident policyholders: under deposit agreements and life insurance agreements with households, under non-life insurance agreements with credit institutions, other financial institutions, except for insurance companies and private pension funds, with nonfinancial organizations and households and funds of private pension funds accumulated to cover the claims of participants in pension plans under agreements on private pension provision, agreements on compulsory pension insurance and agreements on creating a professional pension system. The survey gives data on *net equity of households in life insurance reserves*, *net equity of households in pension funds reserves*, *prepaid premiums and reserves for outstanding claims*. *Net equity of households in life insurance reserves* is technical provisions insurance companies' reserves formed against outstanding risks under life insurance agreements. *Net equity of households in pension funds reserves* comprises pension accruals and reserve for pension plan liabilities accumulated as part of pension reserves of pension funds. *Prepaid premiums and reserves for outstanding claims* include the insurance payments of credit institutions under deposit agreements with households, the amounts of unearned premium reserves and loss reserves formed for covering claims under non-life insurance agreements with residents and the amount of compulsory medical insurance reserves.

Shares and other equity include the authorized capital of insurance companies, public financial corporations the founders'

joint investments and target funding of private pension funds, supplementary and reserve capital of insurance companies and private pension funds, and retained earnings of insurance companies, private pension funds and public financial corporations.

Other items (net) include the balances of other assets and other liabilities, which are not included in the above-mentioned aggregates, and also consolidation adjustment. Other liabilities comprise debts on unpaid pensions and accrued cash surrender value, deferred revenue, accounts payable under insurance and co-insurance agreements, other reserves, equalization reserve of private pension funds, other accounts payable and other liabilities; other assets represent nonfinancial assets, accounts receivable under insurance and co-insurance agreements and other accounts receivable, deferrals, other reserves and costs and other assets; consolidation adjustment represents the balance of reinsurance transactions with residents.

Table 1.22
Financial Sector Survey

General Provisions

"Financial Sector Survey" presents the result of the consolidated data shown in the Banking System Survey and Other Financial Institutions Survey. The consolidation is made by subtracting all intersectoral claims and liabilities between monetary authorities, credit institutions, public financial corporations (since December 2012), insurance companies and private pension funds and by adding up their transactions to other resident and nonresident sectors. The Bank of Russia compiles Financial Sector Survey on a quarterly basis.

Individual Indicators Highlights

Net foreign assets — netting all transactions in assets and liabilities made by monetary authorities, credit institutions, public financial corporations (since December 2012), insurance companies and private pension funds with nonresidents in foreign and national currency.

Claims on nonresidents include foreign assets of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds.

Liabilities to nonresidents include all types of liabilities of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds to nonresidents.

Domestic claims comprise claims of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds on other financial institutions, except for insurance companies and private pension funds, on nonfinancial institutions and households, and also net claims on general government.

Net claims on general government include claims of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds on the Russian Federation government, fiscal authorities of the RF constituent entities and local authorities, government and other extrabudgetary funds less the liabilities of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds to the general government.

Claims on general government include investments of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds in the securities issued by the Russian Federation Government, constituent entities and local authorities, credits extended to government bodies and other accounts receivable.

Liabilities to general government include account balances of the federal budget, the RF constituent entities' budgets, deposits and other funds attracted by the banking system and public financial corporations (since December 2012) from the government of the Russian Federation, fiscal authorities in the RF constituent entities and local authorities, government and

other extrabudgetary funds, insurance technical reserves made under agreements with general government, and general government loans to insurance companies.

Claims on other sectors include claims of banking system institutions, public financial corporations (since December 2012), insurance companies and private pension funds on other financial institutions, except for public financial corporations (since December 2012), insurance companies and private pension funds, on nonfinancial organizations and households.

Claims on other financial institutions comprise investments of banking system, public financial corporations, insurance companies and private pension funds in debt securities and shares of other financial institutions, except for insurance companies and private pension funds, settlements accounts with asset management companies, investments in mutual funds shares and credits and loans extended to other financial institutions, except for public financial corporations (since December 2012), insurance companies and private pension funds.

Claims on nonfinancial organizations comprise investments by the banking system, public financial corporations (since December 2012), insurance companies and private pension funds in debt securities and shares issued by nonfinancial organizations, credits and loans extended to nonfinancial organizations and other accounts receivable.

Claims on households include loans and credit extended by banking system, public financial corporations (since December 2012), insurance companies and private pension funds to individuals and individual entrepreneurs.

Currency outside financial sector — cash issued by the Bank of Russia less cash in vaults of the Bank of Russia, public financial corporations (since December 2012), credit institutions, insurance companies and private pension funds.

Deposits include funds held by the Russian Federation residents (nonfinancial organizations, other financial institutions, except for public financial corporations (since December 2012), insurance companies and private pension funds, and households) in current accounts, time deposit and other funds attracted by the banking system, both included and excluded from broad money.

Securities other than shares include bonds, bills, deposit and saving certificates issued by credit institutions and insurance companies and invested outside the banking system, public financial corporations (since December 2012), insurance companies and private pension funds.

Loans are the loans extended to credit institutions, public financial corporations (since December 2012), insurance companies and private pension funds by nonfinancial organizations, households and other financial institutions, except for public financial corporations (since December 2012), insurance companies and private pension funds.

Insurance technical reserves comprise total funds of public financial corporations (since December 2012), private pension funds and insurance companies to cover the claims of participants in pension plans and resident insurance policyholders and beneficiaries: nonfinancial organizations, households and other financial institutions, except for public financial corporations (since December 2012), insurance companies and private pension funds.

Shares and other equity are the own funds of banking system institutions, public financial corporations (since December 2012), insurance companies and private pension funds. It is calculated as the sum of the aggregate Shares and Other Equity in the Tables "Banking System Survey" and "Other Financial Corporations Survey" (data cover public financial corporations (since December 2012), insurance companies and private pension funds)" .

Other items (net) — assets and liabilities which are not included in the above-mentioned aggregates and consolidation adjustment between mutual liabilities and mutual claims of the banking system, public financial corporations (since December 2012), insurance companies and private pension funds.

Section 2. Main Indicators and Instruments of the Bank of Russia Monetary Policy

The CBR's major function comprises development and conduct of a unified government monetary policy aimed at defending and securing the sustainability of the ruble.

To implement the said function, the CBR applies a set of techniques and methods specified in the Federal Law "On the Russian Federation Central Bank (Bank of Russia)": interest rates for CBR transactions, percentage ratios for required reserves deposited in the CBR, open market operations, banks refinancing, foreign exchange regulation, and other operations.

This section contains information characterizing major areas of CBR operations as well as instruments and methods applied for monetary regulation of the economy.

Table 2.1
The Bank of Russia Balance Sheet

General Provisions

The accounting and compiling of the Bank of Russia balance sheet are regulated by the Federal Law on the Central Bank of the Russian Federation (Bank of Russia), Federal Law on Accounting, Bank of Russia Accounting Rules No. 66-P, dated January 1, 2006 (with subsequent amendments) and other Bank of Russia enactments, issued in compliance with the above federal laws.

The Bank of Russia balance sheet form and the grouping of accounts for compiling it are approved by the Bank of Russia Board of Directors.

Pursuant to Article 25 of the Federal Law on the Central Bank of the Russian Federation (Bank of Russia), the Bank of Russia publishes its balance sheet every month.

In addition to being published in the monthly *Bulletin of Banking Statistics*, Bank of Russia financial statements are included in the Bank of Russia Annual Report.

Individual Indicators Highlights

By assets

Assets are represented in the Bank of Russia balance sheet net of the provisions made for them. Since February 1, 2013 accrued interest receivable/payable is included in related type of assets/liabilities of the Bank of Russia balance sheet.

Precious metals — this entry records precious metals reserves at the reference price.

Funds placed with nonresidents and securities issued by nonresidents — include CBR balances in ruble equivalent on correspondent accounts with nonresident banks, on deposit accounts with nonresident banks, loans extended to nonresident banks, reverse repos with nonresidents and foreign issuers' securities acquired by the CBR.

Credits and deposits include credits and deposits in the Russian and foreign currencies provided by the Bank of Russia to credit institutions, loans extended to credit institutions as repos and other credits in Russian rubles.

Securities are the Bank of Russia investments in the debt securities of the Russian Federation Government, debt securities of other issuers of Russian Federation, credit institutions' bills and shares of credit institutions and other organizations (Bank of Russia shareholding).

Claims on IMF — include quota subscription of the Russian Federation in IMF denominated in rubles, holdings of SDR and other funds of SDR on the account of the Russian Federation in IMF.

Other assets — incorporate balances on Bank of Russia fixed assets accounts, the funds transferred by the Bank of Russia to agent banks as compensation to depositors of bankrupt banks and the Bank of Russia claims on other transactions, and also negative exceeding of unrealised revaluation of foreign currency, securities or precious metals formed since the

beginning of the year (see also the comment to a indicator **Other liabilities**).

By liabilities

Cash in circulation — sum total of the CBR banknotes and coins issued for circulation less (since January 1, 2012) cash in rubles in the Bank of Russia vaults and en route.

Funds in accounts with the Bank of Russia are the balances of funds in correspondent, deposit and required reserve accounts placed by credit institutions with the Bank of Russia, funds raised through repo operations with nonresidents and the balances of accounts for federal, regional and local government budget funds, the state extra-budgetary funds and other funds of Bank of Russia customers.

Float is a float accounted for in the Bank of Russia payment system.

Bank of Russia bonds — reflect a cost of the bonds by the Bank of Russia.

Liabilities to IMF — include balances of funds on the IMF's accounts in rubles, the sum of the security in rubles in IMF's benefit, revaluation of IMF funds on accounts in IMF and the security in IMF's benefit and allocations of SDRs.

Other liabilities represent the Bank of Russia current-year revenues net of expenses (including that were recognized on accrual basis), liabilities on other operations, complementary Bank of Russia employee pension scheme funds, the balances of some other accounts and Bank of Russia retained earnings. Before January 1, 2010 the balance of unrealised revaluation of foreign currency, securities or precious metals was included in the item **Other liabilities**. Since January 1, 2010 positive exceeding of unrealised revaluation of foreign currency, securities or precious metals formed since the beginning of the year are reflected in this indicator, in a case of negative exceeding — in the item **Other assets**.

Capital is the sum of authorised capital, additional capital and reserve and special-purpose funds.

Table 2.2.1
The Bank of Russia Key Rate

General Provisions

The Bank of Russia key rate — interest rate on one-week liquidity provision and absorption open market operations interest rate.

Individual Indicators Highlights

The Bank of Russia key rate is set by the Board of Directors of the Bank of Russia. Bank of Russia key rate is the main indicator of the monetary policy stance.

Table 2.2.2
Refinancing Rate

General Provisions

The "Refinancing Rate" table presents dynamics of changes in the refinancing rate since June 2007 (more prolonged dynamics of the refinancing rate — since January 1, 1992 — can be found on the CBR web site in the Internet).

Data on the effective refinancing rate are available on the CBR web site on the Internet on day after being fixed by the Bank of Russia's Board of Directors, are disseminated through the Reuters agency, Bloomberg Services and also published in the weekly *Bank of Russia Bulletin*.

Individual Indicators Highlights

Refinancing rate — monetary policy instrument used by the CBR to impact upon interest rates in various segments of the financial market. It is set by the Board of Directors of the CBR.

**Table 2.3
Required Reserve Ratios**

Table 2.4

Scaling Factor Which Is Used to Correct the Sum of the Credit Institution Liabilities to Other Credit Institutions — Residents for Issued Securities

Table 2.5

Required Reserves (Averaged Amount) Held by Credit Institutions in Their Correspondent Accounts (Subaccounts) with the Bank of Russia

General Provisions

The table "Required Reserves Ratios" presents the dynamics of the required reserves ratios of liabilities raised by credit institutions in the national and foreign currencies.

The table "Required Reserves (Averaged Amount) Held by Credit Institutions in Their Correspondent Accounts (Subaccounts) with the Bank of Russia" presents the dynamics of the amount of these required reserves. The sum is a part of indicator "Correspondent account balances of credit institutions with the Bank of Russia" in table "Monetary Base (Broad Definition)".

The above-mentioned data and the decisions of the Board of Directors of the Bank of Russia on the changes of the required reserves ratios are published in the Bank of Russia Bulletin. The data are also available on the Bank of Russia's website and disseminated by Reuters and Bloomberg Services.

Individual Indicators Highlights

Required reserves (reserve requirements) are one of the main instruments of the Bank of Russia's monetary policy used for regulating the overall liquidity of the banking system. Reserve requirements are established in order to limit the credit institutions' lending ability and to avoid the unlimited growth of money supply. In the event of revocation of the banking licence the required reserves held with the Bank of Russia are used according to the procedures established by the federal laws and corresponding Bank of Russia regulations.

Pursuant to Article 38 of the Federal Law "On the Central Bank of the Russian Federation (Bank of Russia)" the amount of the required reserves as a percentage of a credit institution's liabilities and the procedure of their depositing with the Bank of Russia is established by the Bank of Russia's Board of Directors.

Credit institution's required reserves are held in the Bank of Russia's special accounts where they are placed through non-cash transactions and/or in the credit institution's correspondent account (subaccount) with the Bank of Russia (by maintaining in it corresponding monthly average balance of funds calculated in accordance with the averaging ratio established by the Bank of Russia).

The scaling factor is a numerical multiplier which value is in an interval from 0 up to 1. It's established by the Bank of Russia Board of Directors to compute the sum of liabilities of the credit institutions to other credit institutions — residents for the issued debt securities, that should be excluded from reserved obligations in accordance with the Bank of Russia Regulation No. 342-P, dated August 7, 2009, "On required reserves of the credit institutions".

The information on the size of scaling factor is published in the Bank of Russia Bulletin.

Note:

The required reserves averaging ratio is an indicator between 0 and 1, established by the Bank of Russia's Board of Directors to calculate the average amount of required reserves. It is published in the Bank of Russia Bulletin.

Credit institutions are authorized to calculate the average amount of required reserves using an averaging ratio that should not exceed the averaging ratio established by the Bank of Russia.

**Table 2.6
Fixed-term Rates on the Bank of Russia Deposit Operations**

The table "Fixed-term Rates on the Bank of Russia Deposit Operations" shows time series of the Bank of Russia fixed

deposit interest rates since 2003 in compliance with the decisions of the Bank of Russia Board of Directors (time series over a longer period - since November 1997 — are shown on the Bank of Russia website).

Information on the Bank of Russia fixed deposit interest rates is available on the Bank of Russia website following a corresponding decision by the Bank of Russia Board of Directors on the rate change, and is also announced on a daily basis along with other parameters of deposit operations.

The Bank of Russia conducts deposit operations with resident credit institutions of the Russian Federation with the aim of regulating banking sector liquidity by taking funds on deposit pursuant to Article 46 of Federal Law No. 86-FZ, dated 10 July 2002, "On the Central Bank of the Russian Federation (the Bank of Russia)," and also, before 1 February 2014, pursuant to the Bank of Russia Regulation No. 203-P, dated 5 November 2002, "On the Procedure for the Central Bank of the Russian Federation to Conduct Deposit Operations with Credit Institutions in the Currency of the Russian Federation" (as amended), and after 1 February 2014, pursuant to the Bank of Russia Regulation No. 404-P, dated 9 August 2013, "On Deposit Operations Conducted by the Bank of Russia with Credit Institutions" and Bank of Russia Order No. OD-18, dated 15 January 2014, "On Organising Deposit Operations Conducted by the Bank of Russia with Credit Institutions." The description of the standard terms of deposits (overnight, tom-next, etc.) is given in the Addendum to the above Order.

**Table 2.7
Fixed-term Rates on the Bank of Russia Lombard Loans**

General provisions

The table "Fixed-term Rates on the Bank of Russia Lombard Loans" shows time series for interest rates on the Bank of Russia lombard loans. The Bank of Russia lombard loans with fixed-term rates are extended according to the procedure established by the Bank of Russia Regulation No. 236-P, dated August 4, 2003, "On the Procedure for Extending by the Bank of Russia Loans against the Collateral (Blocking) of Securities" with amendments (Regulation No. 236-P).

Information on the fixed-term rates on the Bank of Russia lombard loans are available on the Bank of Russia website and on the CBCREDIT page of the Reuters news agency and on the page "CBR" on the Bloomberg Services on daily basis.

Individual Indicators Highlights

The fixed-term rate on lombard loans extended by the Bank of Russia for one, 7 and 30 calendar days is set by the decision of the Bank of Russia Board of Directors.

**Table 2.8
Fixed-term Rates on the Bank of Russia Loans Secured by Gold, Assets or Guarantees**

General provisions

The table presents time series of the fixed-term rates on the Bank of Russia loans secured by gold, assets or guarantees. The Bank of Russia extends loans secured by assets or guarantees with fixed-term rates according to the procedure established by the Bank of Russia Regulation No. 312-P, dated November 12, 2007, "On the Procedure for Extending Bank of Russia Loans Secured by Assets or Guarantees to Credit Institutions" (with amendments) (Regulation No. 312-P). The Bank of Russia extends gold-backed loans with fixed-term rates according to the procedure established by the Bank of Russia Regulation No. 362-P, dated November 30, 2010, "On the Procedure for Extending Bank of Russia Loans Secured by Gold to Credit Institutions" (Regulation No. 362-P).

Individual Indicators Highlights

The fixed-term rate on loans secured by assets and guarantees extended by the Bank of Russia for the period up to 90, from 91 to 180 and from 181 to 365 calendar days is set by the decision of the Bank of Russia Board of Directors.

The fixed-term rate on loans secured by gold extended by the Bank of Russia for the period up to 90, from 91 to 180 and from 181 to 365 calendar days is set by the decision of the Bank of Russia Board of Directors.

**Table 2.9
Main Indicators of the Bank of Russia
Intraday and Overnight Loans**

General provisions

The table contains information on the Bank of Russia's intraday and overnight secured loans extended on correspondent accounts (subaccounts) of resident credit institutions of the Russian Federation opened with the Bank of Russia. The information is presented on daily basis.

Intraday and overnight lending operations are carried out pursuant to the Bank of Russia's Regulations No. 236-P, No. 312-P and No. 362-P.

Intraday loans are extended as overdraft credit (debiting a credit institution's correspondent account (subaccount) above the balance on these accounts) to ensure effective and uninterrupted functioning of the Bank of Russia's payment systems, executing by credit organizations their liabilities and smoothing interest rate fluctuations on the interbank credit market. The fee for intraday loans fixed at nil is based on the decision of the Bank of Russia's Board of Directors.

Credit institutions' end of day debts on intraday loans are registered as overnight loans for one day and entered in a correspondent accounts (subaccounts) of credit institutions opened with the Bank of Russia. Presently the interest rate on the Bank of Russia's overnight loans equals the Bank of Russia's refinancing rate.

Individual Indicators Highlights

Date — the date on which the Bank of Russia extends loans.

Extended loans — the amount of loans extended by the Bank of Russia.

Number of credit institutions (branches) — the number of credit institutions (branches) which received Bank of Russia loans.

Number of the Bank of Russia territorial institutions — the number of the Bank of Russia territorial institutions with credit institutions' correspondent accounts (subaccounts) on which the Bank of Russia extended loans.

Number of credit institutions (branches) in the Moscow region — the number of credit institutions (branches) which received Bank of Russia loans on correspondent accounts (subaccounts) opened with the Bank of Russia's settlement establishments in the Moscow region.

Loans extended in the Moscow region — the amount of Bank of Russia loans entered on credit institutions' correspondent accounts (subaccounts) opened with the Bank of Russia's settlement units in the Moscow region.

**Table 2.10
Main Indicators Characterizing the Bank of Russia
Operations on Secured Lending in Currency
of the Russian Federation
(Except for Intraday and Overnight Loans)**

General Provisions

The table contains information on the Bank of Russia's refinancing operations with credit institutions to regulate bank liquidity by extending rouble-denominated loans pursuant to the Regulations No. 236-P, No. 312-P, No. 362-P.

The table shows data on secured loans extended by the Bank of Russia including lombard and other kinds of loans collateral-

ized by assets, guarantees and gold (except for intraday and overnight loans).

Data on lombard loans are presented as the data on loans broken down into the main lombard loans instruments, number of lombard loan auctions and lombard loans average weighted interest rates.

Data on secured loans of the Bank of Russia collateralized by assets and guarantees are presented by terms of funds accommodation, number of loan auctions and also average weighted interest rates.

Data on loans of the Bank of Russia collateralized by gold are presented with a breakdown by terms of funds accommodation and also average weighted interest rates.

Data on the Bank of Russia loans are available on the Bank of Russia's website and on the CBCREDIT page of the Reuters news agency website and on the page "CBR" on the Bloomberg Services.

Individual Indicators Highlights

The average weighted rate is a rate weighted by volumes of the Bank of Russia loans and by terms of loans.

**Table 2.11
Average Weighted Interest Rates
on the Bank of Russia Deposit Operations**

**Table 2.12
Main Characteristics of the Bank of Russia
Deposit Operations**

**Table 2.13
Results of the Bank of Russia Deposit Auctions
(including Fine-tuning Deposit Auctions)**

General Provisions

Table 2.11 "Average Weighted Interest Rates on the Bank of Russia Deposit Operations" contains information on monthly dynamics of average weighted interest rates by maturities. Average interest rates are weighted by amounts and actual borrowing terms of deposits. Data are grouped by the dates on which funds were actually transferred to the Bank of Russia deposits.

Table 2.12 "Main Characteristics of the Bank of Russia Deposit Operations" contains information on monthly dynamics of the share of funds taken by the Bank of Russia on deposit on fixed-term rates and on an auction basis conditions in the total amount of funds taken by the Bank of Russia on deposit. Data are grouped by the dates on which funds were actually transferred to the Bank of Russia deposits.

Table 2.13 "Results of the Bank of Russia Deposit Auctions (including Fine-tuning Deposit Auctions)" contains information on the auction cut-off rate and the corresponding average weighted rate. The results of deposit auctions are available on the Bank of Russia website.

Individual Indicators Highlights

Maturities of deposit operations comprise deposits on standard terms that coincide with calendar periods pursuant to Bank of Russia Order No. OD-18, dated 15 January 2014, "On Organising Deposit Operations Conducted by the Bank of Russia with Credit Institutions" (irrespective of the actual period of their placement).

Fine-tuning deposit auctions are designated to absorb excess liquidity on certain days when the liquidity supply formed under the impact of autonomous factors considerably exceeds the banking sector's demand for it.

Average weighted interest rate on all deposit auctions is an average interest rate on the funds that were actually deposited with the Bank of Russia (in the reporting period) through deposit auctions, weighted by their maturities and values.

Average weighted interest rate on all deposit operations is an average interest rate on the funds that were actually deposited with the Bank of Russia (in the reporting period) on fixed terms and through deposit auctions, weighted by their maturities and values.

The termination date of unclaimed demand deposits is taken equal to the end date of the appropriate reporting period.

**Table 2.14
REPO Aggregates**

General Provisions

The table "REPO Aggregates" contains information on the results of the Bank of Russia's REPO transactions with bonds in the form of auction and/or during the trading session at the GKO—OFZ market at the market-determined rate.

Individual Indicators Highlights

Date — the date of auction and/or Bond sales during the trading session.

Average weighted rate — the REPO rate weighted by the amounts of REPO transactions at the auction and/or during the trading session at the market-determined rate.

Average weighted duration — REPO duration weighted by the amounts of REPO transactions at the auction and/or during the trading session at the market-determined rate.

Debt — funds provided by the Bank of Russia at the REPO auction and/or during the trading session in transactions with the unredeemed second part.

Funds provided — funds provided by the Bank of Russia at the REPO auction and/or during the trading session on reporting date.

**Table 2.15
Main Characteristics of the Bank of Russia
Bond (OBR) Auctions**

General Provisions

The table "Main Characteristics of the Bank of Russia Bond (OBR) Auctions" contains information on the results of Bank of Russia bond auctions conducted under the Federal Law on the Central Bank of the Russian Federation (Bank of Russia), Federal Law on the Securities Market and Russian Government Resolution No. 799, dated December 30, 2003, on the Specifics of the Procedure for Issuing Bank of Russia Bonds.

Individual Indicators Highlights

Term to redemption is the period of time before the nearest of the following dates: the OBR redemption date set by the bond issue decision, the OBR redemption date on offer or the OBR maturity date.

Redemption date is the nearest of the following dates: the OBR redemption date set by the bond issue decision, the OBR redemption date on offer or the OBR maturity date.

Issue number is the state registration number of the OBR issue, assigned to the issues registered before June 18, 2005, or the issue identification number, assigned to all other issues.

Average weighted rate is the yield to OBR redemption by the Bank of Russia, calculated on the basis of the average weighted price of the OBR issue on sale.

Cut-off rate is the yield to OBR redemption by the Bank of Russia, calculated on the basis of the cutoff price of the OBR issue on sale.

Volume of demand at market value is the total volume of competitive and noncompetitive bids made at the auction.

Average weighted issue price is the bid-weighted average price of all competitive bids met at the auction.

Issue cut-off price is the minimum OBR selling price set by the Bank of Russia upon the receipt of all bids.

**Table 2.16
Main Indicators of the Bank of Russia
Bond (OBR) Market**

General Provisions

The table "Main Indicators of the Bank of Russia Bond (OBR) Market" contains information on the major indicators characterising the OBR secondary market.

Individual Indicators Highlights

Portfolio indicator is the average yield to OBR redemption by the Bank of Russia, weighted by the terms to redemption of the bonds sold and volume in circulation at market value.

Portfolio duration is the average term to OBR redemption (redemption on the nearest of the following dates: the OBR redemption date set by the bond issue decision, the OBR redemption date on offer or the OBR redemption date), weighted by volume in circulation at market value.

Turnover ratio at par value is the ratio of the OBR turnover at par value on the secondary market to the OBR market volume at par value.

Debt is the funds obtained by the Bank of Russia by selling OBR issues through auction and/or at secondary market which have not been repurchased or redeemed by the Bank of Russia.

**Table 2.17
Official Exchange Rate of US Dollar Against Ruble
Table 2.18
Official Exchange Rate of Euro Against Ruble**

General Provisions

Official exchange rates of foreign currencies against ruble are set and published by the Bank of Russia according to Article 53 of Federal Law "On the Central Bank of Russian Federation (Bank of Russia)".

Data on official exchange rates are disseminated on the day of their setting on the official webpage of the Bank of Russia (www.cbr.ru) and published in the next issue of the *Bank of Russia Bulletin*.

Individual Indicators Highlights

Official exchange rate of US dollar against ruble is calculated and set by the Bank of Russia each business day on the basis of USD/RUB quotations in the domestic interbank foreign exchange market.

Official exchange rate of euro against ruble is calculated and set by the Bank of Russia on the basis of the official exchange rate of the US dollar against ruble and EUR/USD quotations in the international interbank foreign exchange market.

**Table 2.21
Reference Prices of Precious Metals**

General Provisions

To promote further development of the precious metals market in Russia, the Bank of Russia, pursuant to its Ordinance No. 1283-U, dated May 28, 2003, "On the Procedure for Fixing Reference Prices of Refined Precious Metals", sets book prices of precious metals every business day at 2 p.m. Moscow time. They are calculated on the basis of real time spot prices of gold, silver, platinum and palladium from London Fixings and recalculated in rubles at official US dollar/ruble rate effective on the day following the day on which book prices were fixed.

The table "Reference Prices of Precious Metals" shows daily book prices of above precious metals for the accounting month.

To enable credit institutions to account for precious metals (gold, silver, platinum and palladium), it is established that reference prices of refined gold, silver, platinum and palladium come into effect on the business day following the day on which they were fixed and remain effective until the Bank of Russia sets new reference prices.

The Bank of Russia Ordinance No. 1284-U, dated May 28, 2003, "On Invalidating Some Bank of Russia Regulations" repealed the Bank of Russia Ordinance No. 652-U, dated September 30, 1999, "On the Procedure for Calculating the Bank of Russia Buying and Selling Prices of Refined Precious Metals in Operations with Credit Institutions" (with amendments), which set the procedure for fixing prices for the Bank of Russia buying and selling precious metals on the domestic market.

The Bank of Russia Ordinance No. 1993-U, dated April 9, 2008, "On Amending Point 2 of the Bank of Russia Ordinance

No. 1283-U, Dated May 28, 2003 on the Procedure for Fixing Reference Prices of Refined Precious Metals", cancelled since July 1, 2008, discounts for fixings equaling "average cost of delivery of each precious metal to the international market".

The reference prices of precious metals fixed by the Bank of Russia are published in the Bank of Russia Bulletin, reported by Interfax, Prime, Reuters, Associated Press and other news agencies and available on the Bank of Russia home page on the Internet.

Section 3. Financial Markets

Subsection 3.1 Interbank Credit Market

Table 3.1.1

Monthly Average Moscow Interbank Bid Rates (MIBID) and Monthly Average Moscow Interbank Offered Rates (MIBOR)

Table 3.1.2

Monthly Average Moscow Interbank Actual Credit Rates (MIACR, MIACR-IG, MIACR-B)

Table 3.1.3

Daily Moscow Interbank Bid Rates (MIBID) and Daily Moscow Interbank Offered Rates (MIBOR)

Table 3.1.4

Daily Moscow Interbank Actual Credit Rates (MIACR, MIACR-IG, MIACR-B)

General Provisions

These tables present the rates for attracted/offered interbank loans for various maturities (1 day, 2 to 7 days, 8 to 30 days, 31 to 90 days, 91 to 180 days, 181 days to 1 year). The tables show the average monthly rates and intra-month dynamics of the interbank interest rates. Table 3.1.2 data can be used for analyzing fluctuations in posted bid rates as compared against the offered rates and actual rates settled for loans given to banks with various credit quality. In general, the data in the table are consistent with other data published in the Bulletin and can be applied to a comprehensive analysis of the financial market situation.

Data source: Form 0409701 "The foreign exchange and money markets transactions report" daily reports of a sample of contributing credit institutions operating in the Russian money market (see the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation").

The data on interbank interest rates are published in the monthly Bank of Russia Bulletin of Banking Statistics, the weekly Bank of Russia Bulletin and are also available on the Bank of Russia's website.

Individual Indicators Highlights

Average Moscow Interbank Bid Rates (MIBID) and Average Moscow Interbank Offered Rates (MIBOR) are calculated as monthly average of the daily bid/offered interbank rates.

Average Moscow Interbank Actual Credit Rate (MIACR), Average Moscow Interbank Actual Rate on Credits to Banks with Investment Grade Credit Rating (MIACR-IG) and Average Moscow Interbank Actual Rate on Credits to Banks with B-Grade Credit Rating (MIACR-B) are calculated as monthly average of daily MIACR/MIACR-IG/MIACR-B rates.

Moscow Interbank Bid/Offered Credit Rates are calculated for each working day and every maturity as a simple average of daily bid/offered rates of contributing credit institutions for corresponding maturities. Maximal rates (10% of overall number of rates) and minimal rates (10% of overall number of rates) are excluded from calculation.

For every maturity the posted bid/offered rates are calculated as a simple average by the following formula:

$$\bar{P} = \frac{\sum P_n}{N}, \text{ where}$$

\bar{P} — posted bid/offered rates (MIBID/MIBOR);

P_n — posted bid/offered rate by credit institution "n";

N — number of contributing rates of credit institutions.

Moscow Interbank Actual Credit Rates (MIACR) are calculated for each working day and every maturity as an average weighted of interest rates on actual interbank lending transactions. **Moscow Interbank Actual Rate on Credits to Banks with Investment Grade Credit Rating (MIACR-IG)** are calcu-

lated for each working day and every maturity as an average weighted of interest rates on actual interbank loans given (with appropriate correction to avoid double counting) to banks with high credit rating (from Baa3 on Moody's scale or BBB– on Fitch and Standard & Poor's scales and higher).

Moscow Interbank Actual Rate on Credits to Banks with B-Grade Credit Rating (MIACR-B) is calculated for each working day and every maturity as a weighted average of interest rates on interbank loans given (with appropriate correction to avoid double counting) to banks with speculative credit rating (from B3 to B1 on Moody's scale or from B to B+ on Fitch and Standard & Poor's scales).

Transactions with maximal rates (10% of overall volume of transactions) and transactions with minimal rates (10% of overall volume of transactions) are excluded from calculation base of MIACR, MIACR-IG and MIACR-B rates. Interbank actual credit rates are calculated for every maturity as an average weighted by the formula:

$$\bar{p} = \frac{\sum K_i S_i}{\sum S_i}, \text{ where}$$

\bar{p} — actual credit rate (MIACR/MIACR-IG/MIACR-B);

K_i — interest rate on interbank loan "i" during the day;

S_i — volume of interbank loan "i" during the day.

Table 3.1.5

Main Indicators of Interbank Credits (Deposits) Turnover and REPO Operations

Table 3.1.6

Average Daily Interbank Credits (Deposits) Turnover and REPO Operations by Maturity

General Provisions

Data source: Form № 0409701 "The currency and money markets transactions report" daily reports of a sample of contributing credit institutions operating in the Russian money market (see the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation"). Tables include average daily turnover of credits (deposits) in the domestic money market and REPO operations with breakdown into the standard money market terms (tools).

Individual Indicators Highlights

Interbank credits (deposits) turnover includes interbank lending-borrowing operations on credits (deposits), unsecured and uncharged.

Subsection 3.2

Exchange Market

Table 3.2.1
Trades at the Unified trading session of Moscow Exchange

General Provisions

The data describes US dollar and euro against ruble trades at the Unified trading session of Moscow Exchange. The trading members are Russian credit and non-credit organizations, non-resident banks, other organizations. Trading and settlements are regulated by the rules approved by the authorized body of Moscow Exchange.

The data are obtained from daily reporting of Moscow Exchange.

Individual Indicators Highlights

Average weighted rate is calculated in accordance with the formula:

$$\bar{r} = \frac{\sum R_i V_i}{\sum V_i}, \text{ where}$$

\bar{r} — average weighted exchange rate;
 R_i — average weighted exchange rate of trading session "i";
 V_i — trading volume of trading session "i".

Trading volume is an aggregate trading volume during the month.

Table 3.2.2
Total Average Daily Currencies' Turnover of Spot FX Transactions on Domestic Currency Market of the Russian Federation
Table 3.2.3
Total Average Daily Currencies' Turnover of Forward FX Transactions on Domestic Currency Market of the Russian Federation

General Provisions

Table is based on data from credit institutions, which are the largest domestic currency market operators. The share of these credit institutions (further — the banks-respondents) in total turnover of FX transactions exceeds 99%.

Individual Indicators Highlights

Spot FX transactions currencies' turnover includes interbank transactions with settlements effected not later than the second bank business day after the transaction day.

Forward FX transactions currencies' turnover includes interbank transactions with settlements effected later than the second bank business day after the transaction day.

Spot FX/Forward FX transactions currencies' turnover includes exchange and over-the-counter transactions conducted among banks-respondents (excluding double-counting), and transactions conducted by banks-respondents with other credit institutions (residents and non-residents of the Russian Federation).

Spot FX/Forward FX transactions currencies' turnover includes also FX swap transactions (only one leg).

Total currencies' turnover is the total value of the deals (excluding double-counting).

Table 3.2.4
Foreign Cash Flow Through Authorized Banks Across Russia

General Provisions

The table "Foreign Cash Flow Through Authorized Banks Across Russia" contains principal indicators of foreign cash (all currencies in dollar terms) circulation on the territory of the Russian Federation.

The table data was sourced from monthly reports of credit institutions that are licensed for foreign exchange transactions (authorized banks) on foreign cash flows and payments on foreign exchange cheques.

Information on foreign cash flow through Russia's authorized banks is available in the *Bulletin of Banking Statistics*, the weekly *Bank of Russia Bulletin* and placed on the CBR Internet web site.

Individual Indicators Highlights

Total foreign currency receipts — include all foreign currency cash receipts to vaults in authorized banks (and their branches) excluding the interbranch operations.

Banks' imports (entered to the cash account) to Russia — the amount of foreign cash import into the Russian Federation by authorized banks and entered to the credit institutions' cash balance account.

Purchased from resident banks¹ — the amount of foreign cash in held by authorized banks as a result of transactions with other resident banks.

Purchased from individuals (residents and nonresidents) and accepted for conversion — the amount of foreign cash purchased from residents and nonresidents against the currency of the Russian Federation or accepted for exchange (conversion), including damaged banknotes of foreign states (group of states) bought against the currency of the Russian Federation.

Deposited into personal accounts (by residents and nonresidents) — the amount of foreign cash deposited into personal foreign currency or ruble accounts by residents and nonresidents, including that acquired from bank (payment) cards, which are issued by the authorized bank or by other issuers, with the payment accepted by a credit institution employee (a teller). Funds deposited through automated teller machines (ATMs) are reported in the "other receipts" category, rather than in this indicator.

Received from individuals (resident and nonresidents) for remittances without opening an accounts — the amount of foreign cash deposited by residents and nonresidents for remittances from the Russian Federation without opening bank accounts, including remittances via money transfer systems. Authorized banks' commission for remittances that originated in the Russian Federation is not included in this indicator but shown in Other Receipts.

Other receipts — the amount of other foreign cash receipts, including:

- foreign currency commission charged for transactions with foreign cash and cheques;
- foreign cash, deposited on accounts of individuals — residents and nonresidents through automatic teller machines (without of a credit institution's employee)²;
- foreign cash returned by resident and nonresident legal entities formerly withdrawn from their foreign currency accounts with authorized banks for covering employee foreign travel expenses and not spent in full.
- foreign cash credited to legal entities' foreign currency current accounts;
- foreign cash held by authorized banks and brought to the Russian Federation by nonresident banks and booked on their correspondent accounts;
- appropriately authenticated banknotes held by authorized banks;
- earnings from selling goods for foreign currency in duty-free shops deposited on legal entities' accounts;
- foreign currency charges and duties paid in cash;
- foreign cash deposited by individuals to repay loans received from authorized banks;
- receipts from sales of foreign currency cheques;
- other legitimate foreign currency receipts.

Total foreign cash expenses — all types of foreign cash expenditures by authorized banks (branches) except for interbranch operations.

Banks' exports from Russia (cash withdrawn) — amount of foreign cash exported from the Russian Federation by authorized banks.

Sales to resident banks — the amount of foreign cash sold (spent) by authorized banks in transactions with other authorized banks.

Sales to individuals (residents and nonresidents) and payments as a result of conversion — the amount of foreign cash sold to residents and nonresidents or paid out as a result of a foreign exchange operation (conversion).

Personal account withdrawals (by residents and nonresidents) — the amount of foreign cash withdrawals from personal accounts by residents and nonresidents as well as a result of foreign exchange operations and ruble account withdrawals, including payments with bank (payment) cards, which are issued

¹ Terms of "residents" and "nonresidents" used for compiling tables "Foreign Cash Flow Through Authorized Banks Across Russia", "Individual Indicators Characterizing Operations with Cash Foreign Currency in Authorized Banks" and "Average Foreign Cash Purchase and Sale Transactions with Individuals by Authorized Banks and Their Branches" are defined according to the Federal Law No. 173-FZ "On Foreign Exchange Regulation and Foreign Exchange Control", dated December 10, 2003.

² From January 2007 operations of purchasing (selling) foreign cash against the currency of the Russian Federation or accepting for exchange (conversion), made with using automatic teller machines, are not included in the indicators Other Receipts and Other expenses. These operations are shown in the indicators "Purchased from individuals (residents and nonresidents) and accepted for conversion" and "Sales to individuals (residents and nonresidents) and payments as a result of conversion".

by the authorized bank or by other issuers, with the payments accepted by a credit institution employee (a teller). Withdrawals through automated teller machines (ATMs) are reported in "other expenses" category, rather than this indicator.

Remittances to individuals (residents and nonresidents) without opening an account — the amount of foreign cash paid out to residents and nonresidents as a result of remittances to the Russian Federation without opening an account.

Other expenses — the amount of other expenses, including:

- purchasing foreign currency cheques;
- foreign cash, paid from the accounts of individuals (residents and nonresidents) through automatic teller machines (without of a credit institution's employee)¹;
- extending foreign currency loans to individuals;
- foreign cash payments from legal entities' foreign currency current accounts;
- other legitimate foreign currency expenses.

Foreign cash balances at the end of reporting period — foreign cash balance at the end of reporting month.

**Table 3.2.5
Selected Indicators Characterizing Operations
with Cash Foreign Currency in Authorized Banks**

General Provisions

The "Selected Indicators Characterizing Operations with Cash Foreign Currency in Authorized Banks" table shows transactions in US dollars and the Euros, which are the key currencies available at the domestic foreign cash market.

Data are provided by monthly reporting on foreign cash flows and documentary payments in foreign currency and cheques by credit institutions licensed for foreign currency transactions (authorized banks).

Along with releasing information on selected indicators of foreign cash operations by exchange offices of the authorized banks through *Bulletin of Banking Statistics*, it is also available on the CBR Internet web site.

Individual Indicators Highlights

Average single transaction — average foreign cash involved in one transaction. The indicator is defined as the ratio of foreign cash amount purchased/sold to/from residents or nonresidents for ruble cash to the number of transactions for foreign cash purchase/sale for rubles in cash.

Number of transactions — number of foreign cash purchases/sales for cash rubles.

Average monthly rate — average rate of foreign cash sales/purchases defined as the ratio of cash rubles received/paid for foreign cash to the amount of foreign currency purchased/sold for cash rubles from/to residents and nonresidents.

Average transaction margin — difference between rates of foreign cash purchase and sale.

Percentage share of a specific foreign currency transaction in total volume of foreign cash transactions by exchange offices — share of purchase/sale transactions for a specific currency (US dollar, Euro) in the total volume of transactions in all foreign currencies.

**Table 3.2.6
Average Foreign Cash Purchase and Sale
Transactions with Individuals by Authorized Banks
and Their Branches**

General Provisions

The table shows purchase and sale transactions with individuals by authorized banks and their branches ranged by an average transaction amount. This differentiates between totals of foreign cash (all currencies in dollar terms) purchases/sales to/from individuals based on fixed amount intervals for transactions. The information is provided by monthly reporting on foreign cash flows and documentary payments in foreign currency and cheques by credit institutions licensed for foreign currency transactions (authorized banks).

Information on average foreign cash purchase and sale transactions with individuals by authorized banks and their branches can be had through *Bulletin of Banking Statistics*, and it is also available on the CBR Internet web site.

Individual Indicators Highlights

Transactions volume-based distribution is defined as the ratio of foreign cash purchased/sold to/from residents and nonresidents in cash rubles to a number of foreign exchange transactions in cash rubles reported by each authorized bank's (branch or headquarters for lack of branches). The amount of purchased/sold foreign cash and the number of within-an-interval transactions by all branches or headquarters show the general distribution of the estimated average transaction.

**Subsection 3.3
Main Characteristics of the
Government Securities Market**

The subsection "Main Characteristics of the Government Securities Market" comprises data on specific placement and redemption parameters of short-term government bond (GKO) and federal loan bond (OFZ) issues and indicators characterising GKO and OFZ secondary trading.

For details about the terms and conditions of government securities issues, circulation and redemption, see the Provision of Bank of Russia No. 219-P, dated March 25, 2003, on the Servicing and Circulation of the issues of Government securities.

The data source for all tables characterising the GKO—OFZ market is the global certificate of issue and information provided on a daily basis by the Moscow Interbank Currency Exchange (MICEX).

Data on operations with government securities are published not only in the *Bulletin of Banking Statistics*, but also in the weekly *Bank of Russia Bulletin* and in the subsection "Government Securities Market" of the section "Financial Markets" in the Bank of Russia site on the Internet.

**Table 3.3.1
Main Highlights of Auctions
for OFZ Placement**

General Provisions

The table "Main Highlights of Auctions for OFZ Placement" contains information on the results of the OFZ primary placement.

Individual Indicators Highlights

Date — date of the OFZ primary placement.

Bond code determines the issue put up for auction.

Demand volume — maximum volume of the issue that auction participants were ready to acquire.

Volume placed — the issue volume actually acquired by auction participants.

Cut-off price determines the bottom price level of accepted bids.

Average weighted price is the ratio of proceeds to the bond volume placed.

Official yield by the average weighted price — yield to maturity calculated by the average weighted price in accordance with the official method of yield assessment for the given type of bonds (OFZ — effective yield).

**Table 3.3.2
Data on Redemption and Coupon Payments
on Government Securities**

General Provisions

The table "Data on Redemption and Coupon Payments on Government Securities" contains data on the expenses involved in bond redemption in the GKO—OFZ market.

Individual Indicators Highlights

Date of placement — the date of floating a security issue, which was redeemed or on which the coupon payments were effected.

Security code — a unique identifier of an issue given in accordance with the Provision.

Volume of redemption/coupon payment — the money spent on redemption/coupon payment.

Volume in circulation — the current nominal amount of securities in circulation on the payment date.

Current coupon rate — the rate of coupon income on the payment date.

**Table 3.3.3
Structure of Bonded Debt
(the OFZ Part Thereof)**

Table 3.3.4

Main Parameters of the OFZs Secondary Market

General Provisions

The table "Structure of Bonded Debt (the OFZ Part Thereof)" shows how the OFZ's market is structured in terms of bond maturity.

The table "Main Parameters of the OFZs Secondary Market" contains the principal indicators on OFZ's secondary trading.

These data apply to outstanding bonds only. For details about how these indicators are calculated, see the Bank of Russia site on the Internet.

Individual Indicators Highlights

Share of total volume in circulation at par — calculated as the ratio of the volume in circulation of a specific kind of securities to the volume of all outstanding bonds at face value.

Market portfolio indicator — mean effective yield on a specific kind of securities, weighted by time to redemption and volume in circulation.

Market turnover indicator — mean effective yield on a specific type of securities, weighted by time to redemption and turnover.

Turnover rate — the ratio of secondary market turnover to market volume.

Duration — the average volume-weighted period to interest payments on securities, including coupon payments.

Permanent-income federal loan bonds — federal loan bonds with a permanent coupon interest rate (these do not include investment federal loan bonds). This kind of securities differs from others in that their coupon interest rate remains unchanged throughout their life.

Fixed-income federal loan bonds — federal loan bonds with a fixed coupon interest rate. Unlike the permanent-income federal loan bonds, these bonds have coupon interest rates that change throughout their life.

Federal loan bonds with sinking funds — federal loan bonds whose nominal value is redeemed by installments. Coupon interest rate on these bonds is fixed for each coupon and coupon income is paid on the unredeemed part of nominal value.

Federal loan bonds with sinking fund and floating income are federal loan bonds, the nominal value of which is redeemed by tranches, and the coupon rate is variable and set

on the basis of official inflation indicators. The coupon income is added to the unrepaid part of the nominal value.

**Table 3.3.5
Average Weighted Interest Rates
on Government Securities Market**

General Provisions

The table "Average Weighted Interest Rates on Government Securities Market" reflects the OFZ interest rates depending on residual maturities. The calculation covers all marketable issues.

The information on the average weighted interest rates of the Government securities market is placed on the Bank of Russia Internet web site also.

Individual Indicators Highlights

The short-term indicator of the market portfolio — an average of effective yields on issues with residual maturities up to 90 days inclusive, weighted by residual maturities and trading volumes.

The medium-term indicator of the market portfolio — an average of effective yields on issues with residual maturities from 91 to 364 days inclusive, weighted by residual maturities and trading volumes.

The long-term indicator of the market portfolio — an average of effective yields on issues with residual maturities over 364 days, weighted by residual maturities and trading volumes.

**Table 3.4
Main Share Price Indices**

General Provisions

The table presents data on the MICEX index, the RTS index and the Moscow Exchange trade turnover.

The MICEX index has been calculated since September 22, 1997 (its initial value was set at 100 points) on the basis of ruble stock prices. The sample of stocks included into the calculation basis is the expert evaluation.

The RTS index has been calculated since September 1, 1995 (its initial value was set at 100 points). Stock prices are denominated in US dollars. The sample of stocks used for the RTS index calculation basis is the expert evaluation.

The Moscow Exchange reviews the MICEX and the RTS Indices' List of constituent Stocks four times a year.

Individual Indicators Highlights

The Moscow Exchange trade turnover is the value of transactions with stocks, conducted in secondary trading on the Moscow Exchange in ruble equivalent.

The MICEX Index and the RTS Index are capitalization-weighted composite indices calculated based on prices of the 50 most liquid stocks of the Russian issuers. Russian depositary receipts (RDRs) also may be included into the indices' Constituent List. The market capitalization contains a share of stocks outstanding in the secondary market (free-float).

More detailed information on the calculation of the above indicators is available at the website <http://rts.micex.ru>.

Section 4. Credit Institutions Performance

Subsection 4.1 General Description

Table 4.1.1
Number and Structure of Credit Institutions

General Provisions

The table "Number and Structure of Credit Institutions" provides data on the number and structure of the registered credit institutions in the Russian Federation.

Credit institutions are subject to the state registration pursuant to the Federal Law "On the State Registration of Legal Entities and Individual Entrepreneurs". They are registered according to the procedure established by Articles 4 and 59 of the Federal Law "On the Central Bank of the Russian Federation (the Bank of Russia)" and Article 12 of the Federal Law "On Banks and Banking Activities".

The Bank of Russia makes decisions on the state registration of credit institutions, grants banking licences to them and suspends and revokes such licences.

Data on the establishment, reorganization and liquidation of credit institutions and other data stipulated by federal laws are entered into the single state register of legal entities by the authorized registering body on the basis of the Bank of Russia decision on the corresponding state registration. The Bank of Russia interacts with the registration authority on issues relating to the state registration of credit institutions in accordance with the procedure agreed by the Bank of Russia with the registration authority. (For the procedure of registration of credit institutions and licensing of banking activities, see also the Bank of Russia Instruction No. 135-I, dated April 2, 2010, "On the Procedure for Making Decisions by the Bank of Russia on the State Registration of Credit Institutions and Issuing Banking Licenses".)

To fulfill its controlling and supervisory functions, the Bank of Russia keeps the State Register of Credit Institutions in accordance with the procedure established by federal laws and the Bank of Russia rules and regulations issued in pursuance of these laws.

The register of licenses granted to credit institutions must be published by the Bank of Russia in the official Bank of Russia Bulletin at least once a year. Any change or addition to the register is published by the Bank of Russia within one month from the day it was entered into the register.

Information on official registration of credit institutions, granting them licenses, changes in their names, location, restructuring and liquidation are reported in the official weekly Bank of Russia Bulletin and placed on the CBR Internet web site.

Individual Indicators Highlights

The concepts of a credit institution, bank and nonbanking credit institutions are determined by the Federal Law "On Banks and Banking Activities" (Article 1):

Credit institution — legal entity authorized by a special CBR permission (license) to make its profits from banking activities within the framework of the above legislation. A credit institution may be established on the basis of any form of ownership as an economic agent.

Bank — credit institution having an exclusive authority for complex banking operations, namely: to accept deposits of legal entities and individuals, to invest raised funds on its behalf and at its cost on terms of repayability, chargeability, and maturity, and also to open and keep banking accounts of individuals and legal entities.

Nonbanking credit institution:

- 1) credit institution authorized exclusively for banking operations, mentioned in points 3 and 4 (only in the part of banking accounts of legal entities connected with money transfers without opening banking accounts), and also in point 5 (only in the part of money transfers without opening banking accounts) and in point 9 part one Article 5 Federal Law "On Banks and Banking Activities" (nonbanking credit insti-

tutions authorized for money transfers without opening banking accounts and other banking operations connected with them);

- 2) credit institution authorized for selected banking operations, established by Federal Law "On Banks and Banking Activities". The permissible combination of banking operations for such nonbanking institutions are specified by the Bank Russia.

Registered credit institutions — credit institutions having the status of legal entities on a reporting date, including those prohibited from performing banking operations but still existing as legal entities.

Credit institutions licensed for banking operations — credit institutions registered by the Bank of Russia before July 1, 2002, or by the registration authority, and entitled to conduct banking operations.

The Bank of Russia license is a special permission of the Central Bank of the Russian Federation (the Bank of Russia) on whose basis a credit institution has the right to conduct banking operations. The banking license spells out the banking operations the given credit institution has the right to carry out, and also the currency in which these banking operations can be performed.

The following types of licenses may be issued to newly created credit institutions:

- license to conduct banking operations in rubles (without the right to accept individual deposits);
- license to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits);
- license to accept and invest precious metals. This license may be granted to a bank along with a license to conduct banking operations with funds in rubles and foreign currencies (without the right to accept individual deposits);
- license to accept individual deposits in rubles. This license may be granted to a bank simultaneously with the license for banking operations in rubles (without the right to accept individual deposits);
- license to accept individual deposits in rubles and foreign currency. This license may be granted to a bank simultaneously with the license for banking operations in rubles and foreign currency (without the right to accept individual deposits);
- license to conduct banking operations in rubles (without the right to accept individual deposits and to implement collection of cash, bills, payment documents and cash service of individuals and legal entities);
- license to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits and to implement collection of cash, bills, payment documents and cash service of individuals and legal entities);
- license to conduct banking operations in rubles and foreign currency for nonbanking clearance credit institutions;
- license to conduct banking operations in rubles and foreign currency for nonbanking credit institutions carrying out credit-deposit operations;
- license to conduct banking operations in rubles and foreign currency for nonbanking credit institutions authorized for money transfers without opening accounts and other banking operations connected with them.

The following types of banking licenses may be issued to an operating credit institution for expansion of its activities:

- license to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits);
- license to accept and invest precious metals. This license may be granted to a credit institution that has a license to conduct banking operations in rubles and foreign currency or simultaneously with such a license;
- license to accept individual deposits in rubles;
- license to accept individual deposits in rubles and foreign currency. This license may be granted to a credit institution that has a license to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits) or simultaneously with it;

- general license;
- license to conduct banking operations in rubles and foreign currency (without the right to accept individual deposits and to render collect of cash, bills, payment documents and cash service of individuals and legal entities).

A general license may be issued to a credit institution that has licenses to conduct all banking operations in rubles and foreign currency and also complies with the Federal Law "On Banks and Banking Activities" own funds (capital) adequacy requirements. A bank is not required to have a license to carry out banking operations with precious metals in order to receive a general license. A bank with a General license has a right to establish branches abroad after obtaining a permission of the Bank of Russia and open representative offices after notifying the Bank of Russia. A bank holding a General license has a right by the Bank of Russia authority and in accordance with requirements of the Bank of Russia to establish subsidiaries abroad.

The Bank of Russia's licenses to accept deposits of individuals — license to accept individual deposits in rubles and license to accept individual deposits in rubles and foreign currency.

The authorized capital of a credit institution is based on funds contributed by owners (shares and other equity) and determines the minimum amount of assets serving as a guarantee to creditors.

As of the date of application for the state registration and a license to conduct banking operations the minimum amount of the share capital for newly created credit institution complies with the Article 11 of the Federal Law "On Banks and Banking Activities".

Registered authorized capital of credit institutions — aggregate value of credit institutions' authorized capitals as registered in the State Register of Credit Institutions, i.e. after the authorized registrar has made in the single state register of legal entities an entry on the state registration of changes in charter documents of a credit institution (or an entry on the state registration of a new version of charter documents of a credit institution) (after July 1, 2009 — records about the state registration of changes of charters of the credit institutions were made (records about the state registration of charters of the credit institutions in new version), that contains information on the registered authorized capital).

Branches of credit institutions having the right to conduct banking operations — structural units of credit institutions located separately from headquarters, which perform on their behalf a full range or selected banking transactions specified by the CBR license.

The line "Sberbank branches" shows Russia's Sberbank branches that were entered into the State Register of Credit Institutions and had their reference numbers assigned. Before January 1, 1998, the line provided the total number of Savings Bank (Sberbank) branches.

Representative offices of credit institutions having the right to conduct banking operations — autonomous structural units of credit institutions having a different location, acting on their behalf and protecting their interests. Representative offices are not entitled to conduct banking operations.

Additional offices, cash credit offices, external cash desks, operational offices, mobile banking offices of credit institutions having the right to conduct banking operations — the special internal divisions of the credit institutions (their branches), particularities of their establishment (liquidation) and activities are stipulated by the normative acts of the Bank of Russia.

Credit institutions with revoked licenses — credit institutions whose banking licenses were revoked following a decision by the CBR under the Federal Law "On the Central Bank of the Russian Federation (the Bank of Russia)".

Following the publication of the CBR's decision to revoke a license, a credit institution loses its authority to make transactions or complete contracts except for ones specified in Article 20 of the Federal Law "On Banks and Banking Activities".

Credit institutions subject to liquidation — credit institutions subject to liquidation:

- a) without signs of bankruptcy by the decision of:
 - a general meeting of stockholders (equity holders) or its body authorized to do so by the funding documents (voluntary liquidation in accordance with paragraph 2 of point 2 of Article 61 of the Civil Code of the Russian Federation);
 - an arbitration court (compulsory liquidation in accordance with paragraph 3 of point 2 of Article 61 of the Civil Code of the Russian Federation).

b) with procedures of bankruptcy by the decision of an arbitration court (which may rule a credit institution bankrupt and initiate bankruptcy proceedings in accordance with point 1 of Article 65 of the Civil Code of the Russian Federation, Federal Law No. 127-FZ, dated October 26, 2002, "On Insolvency(Bankruptcy)" and Federal Law No. 40-FZ, dated February 25, 1999, "On Insolvency (Bankruptcy) of Credit Institutions").

Credit institutions in receivership with court-appointed interim trustees (structure of a liquidating commission is agreed) — credit institutions subject to liquidation:

- a) without any signs of bankruptcy, in which
 - the stockholders (equity holders) or a body that has taken the decision to liquidate the credit institution have appointed liquidation commissions (liquidators), approved by the Bank of Russia;
 - a liquidator has been appointed by the decision of an arbitration court;
- b) through bankruptcy proceedings, following a decision by an arbitration court to introduce receivership and appoint a receiver.

**Table 4.1.2
Number of Credit Institutions
with Nonresidents Equity**

General Provisions

The table "Number of Credit Institutions with Nonresidents Equity" carries information on nonresidents' participation in the authorized capital of credit institutions in the Russian Federation.

Data in brackets include the number of credit institutions in which the decisions taken by non-resident members (whose total stake in authorized capital of credit institutions is over 50%) are greatly influenced by residents of the Russian Federation. Before June 30, 2009, data in brackets included the number of credit institutions in which the decisions taken by non-resident members (which are parent or controlling companies in respect to the credit institution) were greatly influenced by residents of the Russian Federation.

Individual Indicators Highlights

Residents/Nonresidents — the notions "residents" and "nonresidents" used for calculating the indicators of this table are defined in accordance with the Federal Law "On Foreign Exchange Regulation and Foreign Exchange Control", No. 173-FZ of December 10, 2003.

Credit institution with nonresidents equity is a resident credit institution whose authorized capital is formed with the nonresidents' participation regardless of their share in it.

When calculating indicators of the table, credit institutions with the General license were not included in the number of credit institutions licensed by the Bank of Russia to conduct operations in foreign currency.

**Table 4.1.3
Credit Institutions Grouped by
Registered Authorized Capital**

General Provisions

The table "Credit Institutions Grouped by Registered Authorized Capital" is complementary to the table "Number and Structure of Credit Institutions" and presents quantitative distribution by the size of registered authorized capital (see comments on the "Number and Structure of Credit Institution" table). Authorized capital is broken down by intervals giving an overview of small,

medium and large Russian credit institutions. The quarterly supplement to the *Bulletin of Banking Statistics* provides similar data dissected by Russian regions.

The data source is the State Register of Credit Institutions.

Along with releasing information on the breakdown of credit institutions by the size of their authorized capital through the *Bulletin of Banking Statistics*, it is also available in weekly the *Bank of Russia Bulletin*, and on the CBR Internet web site.

Table 4.1.4
**Credit Institutions Grouped by the Share
of Nonresidents Equity**

General Provisions

The table "Credit Institutions Grouped by the Share of Nonresidents Equity" shows the numerical distribution of credit institutions ranged by the size of the nonresidents' participation share in the authorized capital and incorporated into groups.

Data source are reports filed by credit institutions.

Data in brackets include the number of credit institutions in which the decisions taken by non-resident members (whose total stake in authorized capital of credit institutions is over 50%) are greatly influenced by residents of the Russian Federation. Before June 30, 2009, data in brackets included the number of credit institutions in which the decisions taken by non-resident members (which are parent or controlling companies in respect to the credit institution) were greatly influenced by residents of the Russian Federation.

Individual Indicators Highlights

See the commentary to table "Number of Credit Institutions with Nonresidents Equity".

Table 4.1.5
**Selected Performance Indicators
of Credit Institutions Grouped by Assets**

General Provisions

The table includes major performance indicators for tiers of credit institutions, which are first ranked by their assets and then grouped into tiers depending on their rank. Tier performance indicators show typical investment and borrowing patterns for different tiers of credit institutions.

The data source is monthly aggregate balance sheets of the credit institutions that operate in Russia (including balance sheets of their branches).

Individual Indicators Highlights

Number of branches throughout the Russian Federation territory — branches of credit institutions recorded in the State Register of Credit Institutions (for additional information on the State Register of Credit Institutions, see commentary to the table "Number and Structure of Credit Institutions").

Loans, deposits and other funds — debt (overdue debt included) owed by resident and nonresident legal entities (including the Ministry of Finance, financial authorities and organizations, extrabudgetary funds, all categories of public and private enterprises, credit institutions and individual entrepreneurs) and private individuals and foreign states to credit institutions on loans, deposits and other funds in rubles, foreign currency and precious metals, and investments in acquired claims.

Loans and other funds extended to organizations other than credit institutions denote the debt (overdue debt included), owed by resident nonfinancial and financial organizations (except credit institutions) and individual entrepreneurs to credit institutions on all loans and other funds in rubles, foreign currency and precious metals. This indicator does not include the loans and other funds placed by the Ministry of Finance, regional and local financial authorities and federal, regional and local government extrabudgetary funds.

Loans and other funds to individuals denote the debt, including overdue debt, owed to credit institutions on all kinds of loans and other funds extended to resident and non-resident

individuals, except unincorporated individual entrepreneurs, in rubles and foreign currency.

Loans, deposits and other funds extended to credit institutions denote the debt, overdue debt included, on loans, deposits and other funds placed with resident and non-resident credit institutions in rubles and foreign currency.

Overdue debt on loans, deposits and other funds extended to organizations/credit institutions/individuals — overdue debt on loans, deposits and other funds placed by resident and non-resident legal entities, individuals and foreign states. Indicator includes overdue debt on operations with precious metals, in rubles and foreign currency. This indicator does not include overdue interest.

Investments in Russian government securities and the Bank of Russia bonds denote credit institutions' investments in debt obligations issued by the Russian Government and the Bank of Russia. These investments are booked for at their balance-sheet value (regardless of any revaluation).

Investments in bills — the value of discounted bills of exchange acquired by credit institutions, including those that have not been paid on time (both protested and unprotested), and interest accrued on them in national and foreign currency.

Investments in equities and shares of resident organizations other than credit institutions — credit institutions' investments in resident organizations' equity securities booked at their fair value through profit or loss, for equity securities available for sale, at their balance-sheet value without revaluations, as well as authorized capital investments in resident enterprises.

Total funds in organizations accounts — aggregate balances of accounts owned by organizations, except deposit accounts, and by individual entrepreneurs in rubles, foreign currency and precious metals. This indicator does not include federal, regional and local government and other budget funds, as well as funds owned by extrabudgetary funds. Nor does it include the funds that have been debited from customer accounts but are yet to be transferred through a credit institution's correspondent account.

Total budget and extrabudgetary funds in accounts denote governments' funds, as well as balance accounts of extrabudgetary funds.

Deposits of individuals accepted by credit institutions — deposits and other funds accepted by credit institutions (including savings certificates), unfulfilled obligations under deposit and other borrowing arrangements, funds in other individual accounts (resident and nonresident funds both in rubles and foreign currency). This indicator does not include the funds of individual entrepreneurs, individual election funds, transfers from and in Russia, unfulfilled interest obligations, interest accrued on deposits that are credited to separate accounts, and balances of accounts which can not be classified unambiguously.

Credit institutions bonds, bills and acceptances denote the nominal value of securities issued by credit institutions, such as bonds, bills and acceptances.

Equity capital denotes the unencumbered property of credit institutions. Since April 1, 2003, this indicator has been calculated in compliance with the Bank of Russia Regulation No. 215-P, dated February 10, 2003, "On the Methodology of Determining Credit Institution's Own Funds (Capital)".

The sources of data are reports filed by Russian credit institutions under Form No. 0409134 "Own Funds (Capital) Calculation".

Total assets — value of credit institutions' assets. Net value is used for account balances that show funds and assets in transfer.

For details on individual indicators in this Table, see the following Tables: Deposits of Individuals Accepted by Credit Institutions; Funds of Organizations Accepted by Credit Institutions; Savings (Deposit) Certificates, Bonds Issued by Credit Institutions and Derivatives; Funds Raised Through Banking Bills from Legal Entities and Individuals; Loans, Deposits and Other Funds Extended to Organizations, Individuals and Credit Institutions; Discounted Bills; Investment Portfolio of Credit Institutions and Derivatives. The data could be supplemented with monthly balance sheets of credit institutions disclosed on the Bank of

Russia's website (For more information, see the Bank of Russia's website, section Banking Statistics).

**Table 4.1.6
Financial Performance of Credit Institutions**

General Provisions

The Table "Financial Performance of Credit Institutions" includes indicators characterizing the financial performance of operating credit institutions for the period from the beginning of current year, provides data on the number of operating credit institutions that have received profits (sustained losses) for current year, and also reflects the dynamics of the banking sector's financial results. The financial results of credit institutions for previous years are not taken into account.

The data are provided on operating credit institutions. The data are based on the financial statements of Russia's operating credit institutions submitted in accordance with Form 0409101 "The Account Book of a Credit Institution" in accordance with Bank of Russia Ordinance No. 2332-U dated of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Total profit (+)/loss(—) for the current year is calculated by summing up the incomes received net of the expenses made by operating credit institutions in the period under review. Profit (loss) is accumulated through the year.

Profit made by profit-making credit institutions is calculated by summing up the incomes received net of the expenses made by operating credit institutions that had positive or zero profit in the period under review. Profit is accumulated through the year.

Share of profit-making credit institutions is the share of credit institutions that have made profit or posted a zero result from activities in the period from the beginning of the year under review in the total number of operating credit institutions.

Loss of loss-making credit institutions for the current year is calculated by summing up the incomes received net of the expenses made by operating credit institutions that have incurred losses in the period under review. Loss is accumulated through the year.

Share of loss-making credit institutions is the share of credit institutions that have incurred losses in the period from the beginning of the year under review in the total number of operating credit institutions registered in Russian Federation.

Current-year profit allocation signifies the use by operating credit institutions of their current-year profits on tax payments, duties and mandatory payments to the budget; allocations made by the decision of the shareholders' (equity holders') general meeting or in accordance with the credit institution's founding documents to the reserve fund, dividend payments to shareholders (equity holders).

**Table 4.1.7
Distribution of the Credit Institutions by Own Funds
(Capital)**

General Provisions

The table contains indicators that characterise total own funds (capital), as well as the number of small, medium and large credit institution (by the amount of capital) in the Russian banking sector. From April 1, 2003 own funds (capital) are calculated according to the Bank of Russia Regulation No. 215-P dated February 10, 2003 "On the Methodology of Determining a Credit Institution's Own Funds (Capital)".

Data on the credit institutions going through insolvency prevention measures including credit institutions on which the decision on insolvency prevention was taken in September 2008, before the Federal Law No. 175-FZ dated October 27, 2008 "On Additional Measures to Support the Financial System of the

Russian Federation in the period up to December 31, 2014" came into effect are shown separately.

The value of own funds (capital) is broken down into intervals to present the number of small, medium and large credit institutions over the territory of the Russian Federation.

The data are provided on operating credit institutions of the Russian Federation in accordance with Form 0409134 "Own Funds (Capital) Calculation".

Individual Indicators Highlights

Own funds (capital) of credit institutions — property of credit institutions free of obligations.

Capital adequacy ratio — provides a capital adequacy ratio calculated for credit institutions ranged by groups depending on the amount of own funds (capital) as of reporting date (percent). Capital adequacy ratio of credit institutions (N1) regulates (contains) the risk of credit institution's insolvency and sets the minimum own funds (capital) charge, necessary and sufficient to cover credit and market risks. Capital adequacy ratio of credit institutions is calculated as ratio of own funds (capital) of credit institutions to its risk-weighted assets according to the Bank of Russia Instruction No. 139-I dated December 3, 2012 "On Banks' Required Ratios" (with amendments, earlier — Instruction No. 110-I dated January 16, 2004 "On Banks' Required Ratios").

Subsection 4.2 Borrowings

**Table 4.2.1
Deposits of Individuals Accepted
by Credit Institutions**

**Table 4.2.2
Funds of Organizations Accepted
by Credit Institutions**

General Provisions

The tables present data on one of the major transactions in liabilities, namely, deposits accepted by credit institutions in domestic and foreign currency from legal entities and individuals to deposits. Data are broken down by maturity periods specified in the deposit and other contract terms including all complementary agreements and addendums. The tables show total account balances accepted by credit institutions. The data compilation methodology for the information in these tables differs from that used for similar data in the "Credit Institutions Survey" table, which is used for the analysis of money supply and its structure. The data in these tables do not cover deposits of legal entities and individuals with Vnesheconombank, which is not within the scope of credit institutions authorized by the Bank of Russia, but include funds accepted from nonresidents. They also do not cover accrued interest. Discrepancies among individual indicators can be found below.

In Table "Funds of Organizations Accepted by Credit Institutions", the funds accepted from credit institutions are shown including loans, deposits and other funds. This table also shows funds in the accounts of individual entrepreneurs.

The data source is monthly aggregate balance sheets of operating Russian credit institutions.

Individual Indicators Highlights

Ruble/foreign currency deposits by maturity — comprise cash and non-cash funds in Russian or foreign currency placed by legal entities and individuals (both resident and non-resident) deposited with credit institutions under bank deposit agreements or bank account agreements (including savings/deposit certificates). Tables provide a breakdown of deposits by types of depositors (individuals and legal entities, such as organizations and credit institutions) and by maturity. These indicators do not include funds of individual entrepreneurs, individual election funds, remittances in/from the Russian Federation, interest arrears, accrued interest on deposits accounted for in separate accounts and balances of accounts which can not be classified unambiguously.

Demand deposits are funds that must be returned (paid out) at first notice (on demand deposit terms) and funds that must be returned (paid out) upon the onset of the condition (event) provided for in the agreement, whose specific date is unknown (on the terms "upon the onset of the condition (event)").

Time deposits are the deposits taken by a credit institution on the condition that they will be returned upon the expiry of the time period established by the agreement. Interest rates on time deposits are set by credit institution deposit agreements.

Deposits of individuals are the deposits and other funds accepted by credit institutions from individuals, including savings certificates issued by credit institutions, unfulfilled obligations under deposit-taking and other borrowing arrangements and funds in other individual accounts. This indicator does not include the funds of individual entrepreneurs, individual election funds and transfers from and in Russia.

Individual entrepreneurs' funds are the funds of individuals engaged in entrepreneurial activities without registering as a legal entity.

Deposits and other funds raised from organizations are the deposits and other funds raised (on demand or for a specified term) from government bodies and extrabudgetary funds of all levels, all categories of financial organizations, except credit institutions, and nonfinancial organizations (these include the certificates of deposit issued by credit institutions) and unfulfilled obligations under deposit and other borrowing arrangements.

Loans, deposits and other funds accepted from credit institutions comprise the deposits, loans and other funds raised from credit institutions and nonresident banks.

Table 4.2.3

Average Weighted Interest Rates on Nonfinancial Organizations' and Individual Deposits Denominated in Rubles

Table 4.2.4

Average Weighted Interest Rates on Nonfinancial Organizations' and Individual Deposits Denominated in Foreign Currency

Table 4.2.5

Average Weighted Interest Rates on Interbank Deposits Denominated in Rubles and Foreign Currency

General Provisions

The tables contain aggregate average weighted interest rates on deposit offered by credit institutions in ruble, US dollar and euro. The data are presented with a breakdown by type of depositors (individuals, nonfinancial organizations and credit institutions) and deposit maturities.

The source of information is a Report Form 0409129 "Average Weighted Interest Rates Funds offered by Credit Institutions" compiled by credit institutions in accordance with the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Data on average weighted rates for individual short-term deposits in rubles are published in a statistical publication of the IMF "International Financial Statistics".

Individual Indicators Highlights

Average weighted interest rates on deposits by individuals / nonfinancial organizations and average weighted interest rates on interbank deposits are average weighted annual interest rates on deposits in the reporting month and are calculated by the formula:

$$\bar{P} = \frac{\sum PV}{\sum V}, \text{ where}$$

\bar{P} — average weighted deposit rate;

P — nominal annual deposit rate as included in an agreement;

V — amount of a deposit as included in an agreement.

Table 4.2.6
Savings (Deposit) Certificates, Bonds Issued by Credit Institutions and Derivatives

General Provisions

The table contains data on Russian and foreign currency funds raised by credit institutions by issue of debt securities (deposit and savings certificates and bonds) and also data on derivatives at fair value being a liability. Nominal values of the deposit and savings certificates and bonds are provided with a breakdown by their maturities. Absent data for a specific periods means no borrowing in the period. This table does not include interest and coupon accrued on securities issued.

The data source is the monthly aggregate balance sheet of operating Russian credit institutions.

Individual Indicators Highlights

Savings (deposit) certificate is a kind of time deposit (see the commentary to the indicator "Time deposits" in tables "Deposits of Individuals Accepted by Credit Institutions" and "Funds of Organizations Accepted by Credit Institutions") and a security that certifies the amount of deposit made in a credit institution and the right of the depositor (certificate-holder) to receive, upon the expiry of the agreed term, the deposit and interest indicated in the certificate in the credit institution that issued the certificate or any of its branches. The savings certificates (certificates of deposit) are denominated in rubles. For more detailed information about savings certificates and certificates of deposit, see the Regulation "On Savings and Deposit Certificates Issued by Credit Institutions", approved by the Bank of Russia Ordinance No. 333-Dated August 31, 1998. In tables "Deposits of Individuals Accepted by Credit Institutions" and "Funds of Organizations Accepted by Credit Institutions", the savings certificates and certificates of deposit are included in organizations' and individual deposits, respectively.

Bond is a financial security providing the holder's right for receiving, in due time, the nominal value of the bond or some other tangible equivalent. Bonds also provide fixed interest payments or some other tangible equivalent.

Derivatives at fair value being a liability¹.

Derivative is a liability, if the overall estimated value of contractual liabilities on a counterparty exceeds corresponding contractual claims to the same counterparty and a credit institution expects a decrease of future economic benefits resulting from retirement of the assets (cash and other property), exchange of assets or liabilities' redemption on the potentially unfavorable conditions for the credit institution.

Table 4.2.7
Funds Raised Through Banking Bills from Legal Entities and Individuals

General Provisions

The table "Funds Raised Through Banking Bills from Legal Entities and Individuals" contains credit institutions' liabilities on issued bills and bank acceptances.

The data source is the monthly aggregate balance sheet of operating credit institutions.

Individual Indicators Highlights

Bill — direct financial liability that is completed in a legally prescribed form and issued by a promisor to a billholder and gives the latter unconditional right to make claims to the promisor in terms of specific amount, time and place.

Banking bill of exchange — a bill that is mainly used for raising funds by a credit institution.

Acceptance is an agreement on repayment of a bill of exchange that imposes obligation on the acceptor.

Bank acceptance — a bill secured by the credit institution's unconditional obligation to pay a specific amount after a certain period (as accepted by the credit institution).

Total funds in rubles/foreign currency raised by bills, with a breakdown by maturities — funds in rubles/foreign

¹ According to the Bank of Russia Regulation No. 372-P dated July 4, 2011 "On the Procedure for Derivatives Accounting".

currency (in ruble equivalent) accepted by credit institutions through issued bills at nominal value and discounted bank acceptances.

Total funds in rubles/foreign currency raised by bills and banker's acceptances are broken down by maturity periods. Bills matured at a fixed date and at fixed period after issuing the bill date (term bills) are included by actual residual period. Bills payable at sight or at a fixed period after sight are included in "at sight" position. In case of non-payment these bills are treated similarly to the term bills.

Subsection 4.3 Lending

Table 4.3.1
Loans, Deposits and Other Funds Extended to Organizations, Individuals and Credit Institutions

General Provisions

This table shows data covering the major investment activity of banks, that is, extending loans and deposits and other funds to resident and nonresident customers. The data shows lending account balances as of a reporting date with a breakdown by currencies (rubles and foreign currency), borrowers (individuals, organizations and credit institutions) and loan maturities (as indicated in credit agreements). The total outstanding balance of loans extended in rubles and foreign currency (in ruble equivalent) in this table is smaller than that in the Table "Selected Indicators of Credit Institutions Performance Grouped by Assets" by the amount of loans extended to general government, as well as to government and other extrabudgetary funds. In addition, these data do not include investments in financial leasing operations and acquired claims.

The data source is the monthly aggregate balance sheet of operating Russian credit institutions.

Individual Indicators Highlights

Total loans, deposits and other funds extended to organizations, individuals and credit institutions show amounts borrowed by clients from credit institutions on all of these categories of funds, including overdue debt. In addition to amounts borrowed by individuals, organizations and credit institutions, the total includes loans extended to foreign governments, as well as debt and arrears on operations with precious metals, other than operations with credit institutions.

Loans extended to individuals in rubles and foreign currency are amounts borrowed by resident and nonresident individuals, other than individual entrepreneurs, including overdue debt.

Loans and other funds extended in rubles and foreign currency to organizations with a breakdown by their maturities are amounts borrowed by all categories of resident and nonresident financial organizations, other than credit institutions, and by nonfinancial organizations (including loans provided to individual entrepreneurs), without overdue debt. (The structure of financial (other than credit institutions) and nonfinancial organizations corresponds to concepts "other financial institutions" and "non-financial organizations" in notes to the table "Central Bank Survey"). Loans provided for terms of up to 30 days include on-demand and overdraft loans (an overdraft loan is a loan extended to a borrower who has a shortage of funds available on its current account).

Loans, deposits and other funds extended to credit institutions and nonresident banks in rubles and foreign currency are amounts borrowed, deposits and other funds provided to other banks and credit institutions, including overdue debt.

Table 4.3.2
Average Weighted Interest Rates on Ruble-Denominated Loans Extended to Individuals

Table 4.3.3

Average Weighted Interest Rates on US dollar-Denominated Loans Extended to Individuals

Table 4.3.4
Average Weighted Interest Rates on Euro-Denominated Loans Extended to Individuals

Table 4.3.5
Average Weighted Interest Rates on Ruble-Denominated Loans Extended to Nonfinancial Organizations

Table 4.3.6
Average Weighted Interest Rates on US dollar-Denominated Loans Extended to Nonfinancial Organizations

Table 4.3.7
Average Weighted Interest Rates on Euro-Denominated Loans Extended to Nonfinancial Organizations

Table 4.3.8
Average Weighted Interest Rates on Interbank Loans Denominated in Rubles and Foreign Currency

General Provisions

The tables contain aggregate average weighted interest rates on loans extended by credit institutions in ruble, US dollar and euro. The data are presented with a breakdown by type of borrowers (individuals, nonfinancial organizations and credit institutions) and loan maturities.

The source of information is a Report Form 0409128 "Average Weighted Interest Rates Funds Extended by Credit Institutions" compiled by credit institutions in accordance with the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Along with the Bank of Russia monthly *Bulletin of Banking Statistics*, data on average weighted interest rates on short-term ruble loans to nonfinancial organizations are published in a statistical publication of the IMF "International Financial Statistics".

Individual Indicators Highlights

Average weighted interest rates on loans to individuals / nonfinancial organizations and average weighted interest rates on interbank loans — are average weighted annual rates on loans in the reporting month and are calculated by the formula:

$$\bar{P} = \frac{\sum PV}{\sum V}, \text{ where}$$

\bar{P} — average weighted loan interest rate;
P — nominal annual interest rate as included in an agreement;
V — amount of loan as included in an agreement.

Car loans — include loans extended to purchase of vehicles against the collateral of them.

Small and medium-sized businesses are as defined by Federal Law No. 209-FZ, dated July 24, 2007, "On the Development of Small and Medium-Sized Businesses in the Russian Federation".

Table 4.3.9
Loans Extended to Small, Medium-Sized Businesses

General Provisions

The table contains data on ruble and foreign currency funds granted by credit institutions to the small and medium-sized businesses.

The source of information is reports compiled by credit institutions of the Russian Federation (including non-bank credit institutions and State Corporation "Bank for development and foreign economic affairs (Vnesheconombank)" (further — credit institutions) in form 0409302 "Funds Extended and Accepted by Credit Institutions" in compliance with the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Insti-

tutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Small and medium-sized businesses is the term used in compiling indicators for this table as it is defined in Federal Law No. 209-FZ, dated July 24, 2007, "On the Development of Small and Medium-Sized Businesses in the Russian Federation".

Volume of extended loans is the value of loans extended by credit institutions from the beginning of the year. This indicator includes loans extended by credit institutions that had revoked their licence to conduct banking operations during the reporting period.

Debt — balance of the debt, including overdue debt, on loans extended to the small and medium-sized businesses and individual entrepreneurs.

Overdue debt — balance of the overdue debt on loans extended to the small and medium-sized businesses and individual entrepreneurs.

Table 4.3.10

Mortgage Loans Extended by Credit Institutions to Individuals

Table 4.3.11

Mortgage Loans Extended by Credit Institutions to Individuals and Rights of Claim under Mortgage Loans Acquired

Table 4.3.12

Selected Indicators Characterizing Performance of Credit Institutions (Grouped by Size of Assets) on Mortgage Loans Market

General Provisions

The tables show data on housing / mortgage loans extended by credit institutions to individuals-residents in rubles and foreign currency.

The category of housing loans extended to individuals comprises the following loans:

- a) loans extended for the purchase and development of land for housing construction;
- b) loans extended to finance construction;
- c) loans extended to buy housing.

The category of mortgage loans comprises housing loans extended to individuals against the collateral of real estate according to the procedure established by the Federal Law on Mortgage (real estate mortgage).

Starting from 2010, the source of information has been the reports compiled by credit institutions in form 0409316 "Data on Housing Loans", established by Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation", data on 2008–2009 — form 0409316 "Data on Housing Loans", established by Bank of Russia Ordinance No. 1376-U, dated January 16, 2004, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation", prior to 2008 the source of information was the reporting form 0409302 "Funds Extended and Accepted by Credit Institutions".

In addition to being published in the *Bulletin of Banking Statistics*, this information is available on the Bank of Russia's website.

Individual Indicators Highlights

Volume of housing / mortgage loans extended to individuals is the amount of funds provided during the reporting period under credit agreements (additional agreements). This indicator is compiled on the flow basis since the beginning of the year, taking into account data on the loans extended by credit institutions that had revoked banking licences during the reporting period.

Debt on housing / mortgage loans is the balance of the debt, including overdue debt, on loans as of the reporting date.

Average weighted maturity of loans extended since the beginning of the year is an average maturity of housing / mort-

gage loans extended by credit institutions since the beginning of the year and is calculated using the following formula:

$$\bar{T} = \frac{\sum TV}{\sum V}, \text{ where}$$

\bar{T} is the average weighted term of credit;

$T_{1...n}$ is the average weighted maturity of loans extended by a credit institution No. 1...n;

$V_{1...n}$ is the value of loans extended by a credit institution No. 1...n.

Average weighted maturity of loans extended over the month characterises average maturity on housing / mortgage loans extended by credit institutions over the month. It's a calculated value.

Average weighted interest rate on loans extended since the beginning of the year characterizes average interest rates on housing / mortgage loans extended by credit institutions since the beginning of the year and is calculated using the following formula:

$$\bar{P} = \frac{\sum VPT}{\sum VT}, \text{ where}$$

\bar{P} is the average weighted interest rate;

$P_{1...n}$ is the average weighted interest rate on loans extended by a credit institution No. 1...n;

$V_{1...n}$ is the value of loans extended by a credit institution No. 1...n;

$T_{1...n}$ is the average weighted maturity of loans extended by a credit institution No. 1...n.

Average weighted interest rate on loans extended over the month characterises average interest rates on housing / mortgage loans extended by credit institutions over the month. It's a calculated value.

Rights of claim under mortgage loans acquired is the balance of the debt on rights of claim under mortgage loans acquired by credit institutions as of the reporting date.

Table 4.3.13
Investment Portfolio of Credit Institutions and Derivatives

General Provisions

This table shows values of credit institutions' investments in securities, such as debt obligations, except bills of exchange and equities. The data do not include checks, warehouse certificates and passbooks to bearer. The table shows also information on derivatives at fair value being an assets.

Individual Indicators Highlights

Investments in debt obligations are credit institutions' investments in debt obligations that are classified as securities under Russian law (debt obligations of the Russian government, Bank of Russia, regional and local governments, resident credit institutions, and resident organizations other than credit institutions; debt obligations that are backed to repurchase agreements (REPOS) and not to qualify for the derecognition; and nonresident debt obligations, other than bills of exchange, that are considered securities under the law of the issuer's country). Investments in debt obligations include securities that are booked at their fair value through profit or loss, those available for sale and securities that are held to maturity, as well as overdue debt obligations denominated in rubles and foreign currency. Values for debt obligations booked at their fair value through profit or loss and debt obligations available for sale account for revaluation of securities.

Revaluation of debt obligations (equities) denotes negative and positive differences between the balance-sheet value of securities and their current (fair) value. All securities 'booked at fair value through profit or loss' and securities 'available for sale,' whose current (fair) value could be measured reliably, are subject to revaluations.

Investments in debt obligations (equities) at balance-sheet value (regardless of revaluation) — credit institutions' investments in debt obligations (equities) at their balance-sheet value, regardless of any revaluations. The indicator is provided due to the impossibility of breaking down the total value of securities investments at their current (fair) value by issuers (due to peculiarities of accounting standards). The subsequent col-

umns show a breakdown of this total by issuers, as well as the value of debt obligations (equities) transferred that do not qualify for the derecognition.

Debt obligations (equities) transferred that do not qualify for the derecognition are securities passed to counterparties in commercial operations conducted on REPOS basis, whose continue to be recognized.

Overdue debt obligations are acquisition costs of debt obligations and total interest (coupon) income, which were previously recognized as incomes, in the event of the securities issuer's failure to repay securities or make coupon payments on time.

Equity in subsidiaries and associated companies is the value of funds invested in shares of resident and non-resident subsidiary and associated joint-stock companies in the amount that ensures control over the financial and operating policy of the issuing organization or the ability to exert significant influence on financial and operating policy of a joint-stock company.

Derivatives at fair value being an asset.

Derivative is an asset, if the overall estimated value of contractual claims on a counterparty exceeds corresponding contractual liabilities to the same counterparty and a credit institution expects an increase of future economic benefits resulting from receipt of the assets (cash and other property), exchange of assets or liabilities' redemption on the potentially favorable conditions for the credit institution.

**Table 4.3.14
Discounted Bills**

General Provisions

The table includes data on the value of bills of exchange discounted by credit institutions (including overdue bills).

Data source is monthly aggregate balance sheets of operating Russian credit institutions.

Individual Indicators Highlights

Total discounted bills denominated in rubles is the total value of bills of exchange denominated in rubles/foreign currency and acquired prior to their maturity (including overdue bills).

Total of discounted ruble/foreign currency bills are broken down by promissors:

- bills issued and guaranteed by the federal government;
- bills issued and guaranteed by Russian regions and local authorities;
- resident credit institutions' bills;
- nonresidents' bills — comprise discounted bills of foreign central and local governments, including bills guaranteed by them, and nonresident banks and other nonresident bills;
- other residents' bills.

**Table 4.3.15
Average Weighted Interest rates (Yield)
on Operations of the Credit Institutions
with Bills Denominated in Rubles, by Maturity**

General Provisions

The table contains average weighted interest rates (yield) on ruble-denominated discounted bills of non-financial organizations and credit institutions, and also on ruble-denominated bills issued by credit institutions.

Interest rates (yield) on ruble nominated bills acquired (discounted) by credit institutions over the report period are given by types of drawers and shown by maturity.

Interest rates (yield) on ruble nominated bills issued by credit institutions over the report period are shown by maturity.

Data source: monthly reports of operating credit institutions on forms 0409128 and 0409129 (see Bank of Russia Ordinance

No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation").

Individual Indicators Highlights

Average weighted interest rates (yield) on ruble-denominated discounted bills of non-financial organizations, by maturity — average weighted interest rates (annual yield) on ruble-denominated bills are issued by non-financial organizations and acquired (discounted) by credit institutions with break down into redemption periods.

Average weighted interest rates (yield) on ruble-denominated discounted bills of credit institutions, by maturity — average weighted interest rates (annual yield) on ruble-denominated bills are issued by credit institutions and acquired (discounted) by credit institutions with break down into redemption periods.

Average weighted interest rates (yield) on ruble-denominated bills issued by credit institutions, by maturity — average weighted interest rates (annual yield) on ruble-denominated bills are issued by credit institutions and placed on the primary market with break down into redemption periods.

Average weighted interest rates (yield) on ruble-denominated discounted bills of non-financial organizations / credit institutions, by maturity, are defined as follows:

$$\bar{P} = \frac{\sum PV}{\sum V}, \text{ where}$$

\bar{P} — average weighted interest rate on discounted bills;
 P — annualized discount rate on a bill;
 V — purchase price of a discounted bill.

Average weighted interest rates (yield) on ruble-denominated bills issued by credit institutions, by maturity, are defined as follows:

$$\bar{P} = \frac{\sum PV}{\sum V}, \text{ where}$$

\bar{P} — average weighted interest rate on issued bills;
 P — bill's annualized yield;
 V — value of the placed on the primary market bill.

**Table 4.4
Credit Institutions' Claims and Liabilities
on Financial Derivatives**

General Provisions

The table presents credit institutions' liabilities and claims on financial derivatives to buy and sell various financial assets (precious metals, securities, foreign exchange, other funds and derivatives) in which the settlement date does not coincide with the transaction date. Financial forward settlement contracts, options, forward and futures contracts, whose execution (settlement date) is effected by the parties no sooner than the third working day after the striking of the deal. Derivatives transactions are shown in the off-balance sheet item from the contract date till the value date. Derivatives claims on and liabilities to financial instruments with market or official prices (rates) are recorded at these prices and revaluated in due order.

Credit institutions' liabilities and claims on financial derivatives are broken down by major underlying financial instruments (rubles and foreign currency, precious metals, securities) and by term of settlement: 2—30 days, 31—90 days, over 90 days. Total of claims and liabilities across all financial instruments presented in the table also include amounts due for repayment "on the following day".

Data are obtained from monthly aggregate balance sheets (Subsection D "Transactions in Derivatives") of operating Russian credit institutions.

Section 5. Selected Indicators on the Russian Federation's Payment System

Table 5.1
Payments Effected by the Payment System of Russia

General Provisions

The table presents data on the volume and value of cashless payments effected by the payment system of Russia, including payments effected by the payment system of the Bank of Russia and Russian credit institutions.

The sources of information are quarterly reports of credit institutions and regional branches of the Bank of Russia on the payments effected.

Individual Indicators Highlights

Payments effected by the payment system of the Bank of Russia include payments of credit institutions (branches) and their customers, payments of customers of the Bank of Russia other than credit institutions and the Bank of Russia's own payments made to the payees through the branches of the Bank of Russia.

Payments effected by private payment systems include payments of the customers of credit institutions (branches) other than credit institutions and own payments of credit institutions (branches) that are conducted by settlement non-banking credit institutions, by credit institutions (branches) through correspondent accounts opened with other credit institutions (branches), and through interaffiliate settlement accounts opened in subdivisions of a single credit institution, and also payments within a single subdivision of a credit institution (head office or branch).

Payments with payment cards and transactions of credit institutions' customers at financial markets are excluded.

Table 5.2
Payments Effected by the Payment System of the Bank of Russia and Credit Institutions, by Method of Payment

General Provisions

The table presents data on the volume and value of non-cash payments effected by the payment system of the Bank of Russia and Russian credit institutions electronically and by using paper technology.

Individual Indicators Highlights

Electronic payments refer to payments effected in the payment system of the Bank of Russia and Russian credit institutions without transferring paper-based settlement documents, with funds credited to payees' accounts on the basis of electronic payment documents. Other payments are referred as **paper-based payments**.

Table 5.3
Data on Customers Participating in the Bank of Russia's Payment System That Exchange Electronic Documents with the Bank of Russia

General Provisions

The table presents data on the number and composition of the customers of the Bank of Russia that exchange settlement documents electronically when effecting non-cash settlements through the payment system of the Bank of Russia. The data are aggregated for credit institutions and their branches, the Federal Treasury bodies, and other customers of the Bank of Russia.

The sources of information are the Bank Identification Code (BIC) Directory of the Russian Federation and other statistical data collected by the Bank of Russia.

Individual Indicator Highlights

Operating credit institutions and branches participating in the payment system of the Bank of Russia are functioning credit institutions and their branches according to the BIC Directory.

Federal Treasury bodies are the divisions and branches of the Federal Treasury that are customers of the Bank of Russia and use its cash settlement and cash services. Federal Treasury bodies are counted twice if simultaneously serviced in two branches of the Bank of Russia.

Other customers of the Bank of Russia are the customers of the Bank of Russia other than credit institutions, their branches and the Federal Treasury bodies.

"Of which participate in exchange" refers to operating credit institutions and their branches, the Federal Treasury bodies and other customers of the Bank of Russia that have concluded agreements with the Bank of Russia on the exchange of electronic documents in effecting settlements through the payment system of the Bank of Russia.

Table 5.4
Number of Participants (Users) in Intraregional Electronic Settlements (VER), Interregional Electronic Settlements (MER) and in the Banking Electronic Speed Payments (BESP system) of the Bank of Russia

General Provisions

The table presents information about the number of participants and users in the intraregional electronic settlement systems (VER) and interregional electronic settlement systems (MER), and also the number of participants in the system of banking electronic speed payments (hereafter — BESP system) of the Bank of Russia.

Electronic payments in the intraregional electronic settlement system are effected between the participants and/or users of the system — customers of the Bank of Russia located within one region or group of regions of the Russian Federation, serviced by one institution of the Bank of Russia.

Electronic payments in the interregional electronic settlement system are effected between the participants and/or users of the system — customers of the Bank of Russia located in different regions of the Russian Federation.

Electronic payments in BESP system are effected in real time between the system participants, irrespective of their territorial location.

The data information sources are Directory of BIC in Russia and Directory of BESP Participants.

Individual Indicators Highlights

The Bank of Russia institutions are the main settlement and cash centers, settlement and cash centers, operational divisions included in the Directory of BIC in Russia.

Participants in intraregional and interregional electronic settlements are the institutions of the Bank of Russia that meet the requirements of the Bank of Russia regulations for electronic settlements in the Bank of Russia payment system and identified in the Directory of BIC in Russia by the respective indicator "participation in electronic settlements".

BESP system participants are the institutions of the Bank of Russia and structural units of the Bank of Russia, credit institutions, branches of credit institutions, that meet the requirements of the Bank of Russia regulations on the procedure to settle electronic payments via BESP system, marked in the Directory of BIC in Russia by the respective indicator "participation in electronic settlements" and included in the BESP System Participants Manual, and also structural units of the Bank of Russia and customers of the Bank of Russia, which are not credit institutions (branches), that meet the requirements of the Bank of Russia regulations on the procedure to settle electronic payments via BESP system and included in the BESP System Participants Manual.

Credit institutions and their branches are the operating credit institutions and their branches included in the Directory of BIC in Russia.

Other customers are customers of the Bank of Russia, which are not credit institutions (branches), that use electronic documents exchange with the institutions of the Bank of Russia

and information and computational structural units of the Bank of Russia via channel lines.

VER and MER system users are credit institutions and their branches that have correspondent accounts (subaccounts) in the institutions of the Bank of Russia — participants, respectively, of intraregional and interregional electronic settlement systems, and identified in the Directory of BIC in Russia by the respective indicator “participation in electronic settlements”; and other customers of the Bank of Russia which are not credit institutions (branches) that have bank accounts in the institutions of the Bank of Russia — participants, respectively, of intraregional and interregional electronic settlement systems.

Table 5.5
Selected Indicators On Bank Card Transactions

General Provisions

The table shows the dynamics of transactions with bank cards issued by credit institutions which are made by customers on and outside the territory of the Russian Federation, disaggregated for individuals and legal entities.

The information source is quarterly statistical reports submitted by credit institutions to the Bank of Russia.

Individual Indicator Highlights

A bank card is a payment card issued by a credit institution.

The number of bank cards signifies the actual number of bank cards handed by credit institutions to their customers.

The number of bank cards in use is the number of bank cards used in transactions during a quarter.

Payments for goods, works and services are the payments for goods, works and services made with bank cards on and outside the territory of the Russian Federation and also customs payments made with bank cards on the territory of the Russian Federation.

Other transactions include bank cards transactions made to transfer money to other bank accounts, charitable contributions and etc.

Data on the number of bank cards issued are given as of the 1st day of the month following the reporting quarter.

Data on the value and volume of bank card transactions are given for the reporting quarter.

Table 5.6
Payments of Customers Other than Credit Institutions Effected by the Payment System of the Bank of Russia, by Payment Instruments

General Provisions

The table presents the information on number and value of payments of customers other than credit institutions effected

through the payment system of the Bank of Russia in view of payment instruments (payment orders, letters of credit, payment request and collection orders) by using electronic or paper technologies.

Individual Indicator Highlights

The Bank of Russia customers other than credit institutions are Federal Treasury and its branches; budgetary institutions which are financed at the expense of federal budget; budgetary institutions which are financed at the expense of the constituent entities of the Russian Federation budgets; budgetary institutions which are financed at the expense of local budget; financial bodies of constituent entities of the Russian Federation, financial bodies of municipal formations; custom bodies; state and other extra-budgetary funds; the election committee and other organizations.

Electronic payments are the payments effected through the payment system of the Bank of Russia without paper-based settlement documents, with funds credited to payees' accounts on the basis of electronic payment documents. Other payments are referred as **paper-based payments**.

Table 5.7
Payments of Participants (Users) Effected by the Payment System of the Bank of Russia by each settlement system

General Provisions

The information on volume and value cashless payments effected through settlements systems of the payment system of Bank of Russia is presented in the table.

The sources of information are credit organizations and the Bank of Russia regional branches' effected payments quarterly reports.

Individual Indicator Highlights

Electronic payments in the intraregional electronic settlement system are effected between the participants and/or users of the system — customers of the Bank of Russia located within one region or group of regions of the Russian Federation, serviced by one institution of the Bank of Russia.

Electronic payments in the interregional electronic settlement system are effected between the participants and/or users of the system — customers of the Bank of Russia located in different regions of the Russian Federation.

Electronic payments in BESP system are effected in real time between the system participants, irrespective of their territorial location.

Settlement system using letter of advice provides carrying out of paper-based settlements both intraregional and interregional level.

Section 6. Regional Section

The information in tables of *Regional Section* is formed according to the federal structure of the Russian Federation¹, set up by the Constitution of the Russian Federation (Article 5) with breakdown by constituent entities of the Russian Federation (Article 65), and also by federal districts which structure is set up by the President of the Russian Federation Decree dated May 13, 2000 No. 849.

Subsection 6.1 Institutional Characteristics

**Table 6.1.1
Number of Credit Institutions
and Their Branches**

General Provisions

The table "Number of Credit Institutions and Their Branches" presents data on the number of credit institutions licensed by the Bank of Russia, by constituent entities of the Russian Federation.

The source of information is the State Register of Credit Institutions.

In addition to being published in the *Bulletin of Banking Statistics*, data are placed on the Bank of Russia Internet web site.

Individual Indicators Highlights

The concepts of a credit institution and a branch of a credit institution are determined by the Federal Law "On Banks and Banking Activities" (Article 1):

Credit institution — a legal entity authorized by a special the Bank of Russia permission (license) to make its profits from banking transactions under the above legislation. A credit institution may be established on the basis of any form of ownership as an economic agent.

Branches of operating credit institutions — a structural units of credit institutions located separately from a head office and performing on its' behalf a full range or selected banking transactions specified by the Bank of Russia license.

**Table 6.1.2
Number of the Internal Divisions
of Credit Institutions (Branches)**

General Provisions

The table "Number of the Internal Divisions of Credit Institutions (Branches)" provides data on the internal structure of the registered credit institutions in the Russian Federation.

Individual Indicators Highlights

Additional offices, external cash desks, cash credit offices, operational offices, having the right to conduct banking operations — the special internal divisions of the credit institutions (their branches), particularities of their establishment (liquidation) and activities are stipulated by the regulations of the Bank of Russia.

**Table 6.1.3
Number of Credit Institutions
with Nonresidents Equity**

General Provisions

The table "Number of Credit Institutions with Nonresidents Equity" presents data on nonresident stake holdings in the authorized capital of credit institutions operating in Russian Federation.

Data in brackets include the number of credit institutions in which the decisions taken by non-resident members (whose total stake in authorised capital of credit institutions is over 50%) are greatly influenced by residents of the Russian Federation.

Individual Indicators Highlights

Residents/Nonresidents — the notions "residents" and "nonresidents" used for calculating the indicators of this table are defined in accordance with the Federal Law "On Foreign Exchange Regulation and Foreign Exchange Control", No. 173-FZ of December 10, 2003.

Credit institution with nonresidents equity in the authorized capital is a resident credit institution whose authorized capital is formed with the nonresidents' participation regardless of their share in it.

When calculating indicators of the table, the banks with the General license were not included in the number of banks licensed by the Bank of Russia to conduct operations in foreign currency.

**Table 6.1.4
Credit Institutions
Grouped by Registered Authorized Capital**

General Provisions

The table "Credit Institutions Grouped by Registered Authorized Capital" indicates the number of operating credit institutions broken down by size of their registered authorized capital. Authorized capital is broken down into intervals to show the number of small, medium-sized and large credit institutions by constituent entities of the Russian Federation.

The source of information is the State Register of Credit Institutions.

In addition to being published in the *Bulletin of Banking Statistics*, data on the breakdown of credit institutions by registered authorized capital are published in the weekly *Bank of Russia Bulletin* and placed on the Bank of Russia Internet web site.

Individual Indicators Highlights

The registered authorized capital of credit institutions — the fully paid authorized capital reflected in the book by the authorized registrar in charter documents (changes in charter documents) of a credit institution.

**Table 6.1.5
Concentration of Assets of Credit Institutions**

General Provisions

The table "Concentration of Assets of Credit Institutions" shows the number of credit institutions registered in the given federal district and their total assets as of corresponding dates. It also shows how many credit institutions cover 80% of total assets.

The source of information is monthly reporting form 0409101 "The Account Book of a Credit Institution" in accordance with Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation", including data of the branches of credit institutions.

Individual Indicators Highlights

The number of credit institutions signifies the number of operating credit institutions registered in the corresponding federal district of the Russian Federation.

Assets are total assets of credit institutions registered in the corresponding federal district (intrabank operations are included on net basis).

The number of credit institutions covering 80% of assets signifies the number of credit institutions that cover

¹ Article 5 of the Russian Federation Constitution establishes, that "the Russian Federation consists of republics, territories, regions, cities of federal significance, autonomous regions, autonomous areas which have rights as constituent entities of the Russian Federation".

80% of total assets of credit institutions registered in the given federal district.

**Table 6.1.6
Credit Institutions Using the Right to Average
the Required Reserves within Averaging Period
from April 10 to May 10, 2014
Grouped by Registered Authorized Capital**

General Provisions

The table shows data on the number of credit institutions that use their right to average required reserves pursuant to the Bank of Russia Regulation No. 342-P, dated August 7, 2009, "On the Required Reserves of Credit Institutions" (with amendments), grouped by registered authorized capital as of the reporting date, by constituent entities of the Russian Federation.

Individual Indicators Highlights

The averaging of required reserves is the procedure whereby the averaged balance of a correspondent account or correspondent sub-accounts of a credit institution opened with the Bank of Russia are considered as a part of the credit institution's required reserves as of the corresponding reporting date.

The total on the Russian Federation includes the number of credit institutions using the right to average required reserves with breakdown by the size of registered authorized capital.

The total on the federal district includes the number of credit institutions using the right to average required reserves and regulating them in the Bank of Russia regional branches in the corresponding federal districts where their correspondent accounts are held with breakdown by the size of registered authorized capital.

The total on the constituent entities includes the number of credit institutions using the right to average required reserves and regulating them in the Bank of Russia regional branches in the corresponding region, territory or republic where their correspondent accounts are held with breakdown by the size of registered authorized capital.

**Table 6.1.7
Financial Performance of Credit Institutions**

General Provisions

The Table "Financial Performance of Credit Institutions" includes indicators characterizing the financial performance of operating credit institutions for the period from the beginning of current year, provides data on the number of operating credit institutions that have received profits (sustained losses) for current year, and also reflects the dynamics of the banking sector's financial results. The financial results of credit institutions for previous years are not taken into account.

The data are provided on operating credit institutions registered in corresponding federal districts with breakdown by constituent entities of the Russian Federation. The source of information is aggregated monthly reporting form 0409101 "The Account Book of a Credit Institution" in accordance with Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

The total profit (+)/loss(–) for the current year is calculated by summing up the incomes received net of the expenses made by operating credit institutions in the period under review. Profit (loss) is accumulated through the year.

The value of profit made by profit-making credit institutions is calculated by summing up the incomes received net of the expenses made by operating credit institutions that had positive or zero profit in the period under review. Profit is accumulated through the year.

The share of profit-making credit institutions is the share of credit institutions that have made profit or zero result from activities in the period from the beginning of the year

under review in the total number of operating credit institutions registered in Russian Federation.

The value of losses (–) of loss-making credit institutions for the current year is calculated by summing up the incomes received net of the expenses made by operating credit institutions that have incurred losses in the period under review. Loss is accumulated through the year.

The share of loss-making credit institutions is the share of credit institutions that have incurred losses in the period from the beginning of the year under review in the total number of operating credit institutions registered in Russia.

Current-year profit allocation signifies the use by operating credit institutions of their current-year profits on tax payments, duties and mandatory payments to the budget; allocations made by the decision of the stakeholders' (equity holders') general meeting or in accordance with the credit institution's founding documents to the reserve fund, dividend payments to stakeholders (equity holders).

**Table 6.1.8
Credit Institutions
Grouped by the Share of Nonresidents Equity**

General Provisions

The table "Credit Institutions by the Share of Nonresidents Equity" show how credit institutions are ranged and grouped by the size of nonresident stake holdings in their authorized capital.

The source of information is reports filed by credit institutions.

Data in brackets include the number of credit institutions in which the decisions taken by non-resident members (whose total stake in authorised capital of credit institutions is over 50%) are greatly influenced by residents of the Russian Federation.

Individual Indicators Highlights

See commentary on table "Number of Credit Institutions with Nonresidents Equity".

**Table 6.1.9
Number of Credit Institutions under the General
Deposit Agreement with the Bank of Russia (GDA),
General Loan Agreement (GLA), Number of
Correspondent Accounts
Credited by the Bank of Russia (CA)**

General Provisions

The table "contains the following information:

Information on GDA - before 1 February 2014 (the Agreement on Deposit Operations, AD) – the number of credit institutions that have concluded and have not cancelled the agreement with the Bank of Russia on the conduct of deposit operations in rubles, using the Reuters Dealing System and/or a General deposit agreement on conducting deposit transactions in the Russian currency using the Moscow Exchange Electronic Trade System in compliance with the Bank of Russia Regulation No. 203-P, dated 5 November 2002, "On the Procedure for the Central Bank of the Russian Federation to Conduct Deposit Operations with Credit Institutions in the Currency of the Russian Federation" (as amended);

- after 1 February 2014 (GDA) – the number of credit institutions that have concluded General deposit agreements with the Bank of Russia regional branches at the place of opening of their correspondent accounts pursuant to the Bank of Russia Regulation No. 404-P, dated 9 August 2013, "On Deposit Operations Conducted by the Bank of Russia with Credit Institutions" and have not cancelled them as of the corresponding reporting date, with a breakdown by constituent entities of the Russian Federation, federal districts and the Russian Federation as a whole;

Information on GLA - the number of credit institutions that have concluded General loan agreements with the Bank of Russia under the Bank of Russia Regulation No. 312-P, dated 12 November 2007, "On the Procedure for the Bank of

Russia to Extend Loans to Credit Institutions against Assets or Guarantees" (as amended) and/or General loan agreements for the provision of the Bank of Russia loans against gold under the Bank of Russia Regulation No. 362-P, dated 30 November 2010, "On the Procedure for the Bank of Russia to Extend Loans to Credit Institutions against Gold" and/or General loan agreements for the provision of the Bank of Russia loans against the collateral (blocking) of securities under the Bank of Russia Regulation No. 236-P, dated 4 August 2003, "On the Procedure for the Bank of Russia to Extend Loans to Credit Institutions against the Collateral (Blocking) of Securities" (as amended) and/or agreements for the provision of the Bank of Russia loans against the collateral (blocking) of securities in Moscow Exchange transactions with the use of the Moscow Exchange Electronic Trade System, according to the Bank of Russia letter No. 113-T, dated 25 August 2006, "On the Conclusion of Agreements on the Extension of the Bank of Russia Loans";

Information on CA - the number of credit institutions' correspondent accounts and sub-accounts credited by the Bank of Russia under General loan agreements.

Credit institutions conclude General agreements/General deposit agreements with the Bank of Russia regional branches where their correspondent accounts were opened. Regional credit institutions conclude General agreements on deposit operations only if they have a branch in the Moscow Region. Credit institutions conclude General loan agreements with those the Bank of Russia regional branches where their correspondent accounts were opened.

Individual Indicators Highlights

Number of credit institutions that have concluded deposit agreements with the Bank of Russia

The total on the Russian Federation includes the total number of credit institutions that have concluded General loan agreements with the Bank of Russia as of the reporting date.

The total on the federal district includes the number of credit institutions that have concluded General loan agreements with the Bank of Russia regional branches in the corresponding federal district where they opened correspondent accounts as of the corresponding reporting date.

The total on the constituent entities includes the number of credit institutions that have concluded General loan agreements with the Bank of Russia regional branches where their correspondent accounts were opened as of the corresponding reporting date.

Number of correspondent accounts and sub-accounts credited by the Bank of Russia

The total on the Russian Federation includes total credit institutions' correspondent accounts/sub-accounts opened with the Bank of Russia regional branches, to which the Bank of Russia can transfer loans under General loan agreements as of the corresponding date.

The total on the federal district includes the number of credit institutions' correspondent accounts/sub-accounts opened with the Bank of Russia regional branches located in the corresponding federal district, to which the Bank of Russia can transfer loans under General loan agreements as of the corresponding date.

The total on the constituent entities includes the number of credit institutions' correspondent accounts/sub-accounts opened with the Bank of Russia regional branches, to which the Bank of Russia can transfer loans under General loan agreements as of the corresponding date.

Subsection 6.2 Foreign Cash Operations

Table 6.2.1

Foreign Cash Sales to Individuals by Authorized Banks (in US Dollar Equivalent for All Currencies)

General Provisions

The table "Foreign Cash Sales to Individuals by Authorized Banks (US Dollar Equivalent for All Currencies)" contains data on the volume of sale of foreign cash to individuals by the authorized banks in the Russian Federation as a whole and also with the breakdown by the constituent entities of the Russian Federation.

Data are provided by monthly reporting on foreign cash and cheques flows of credit institutions licensed by the Bank of Russia to conduct operations with foreign currency (authorized banks), as well as reporting by authorized bank branches which are permitted to conduct operations with foreign currency.

To addition to being published in the *Bulletin of Banking Statistics*, data on the volume of sale of the major currencies (the US dollar and the euro) by the authorized banks with breakdown by the constituent entities of the Russian Federation are published in the weekly *Bank of Russia Bulletin*.

Individual Indicators Highlights

Foreign cash sales to individuals by authorized banks (in US dollar equivalent for all currencies) — amount of foreign cash sold in the period under review to individuals (residents and nonresidents) for Russian rubles by authorized banks and their branches, internal divisions of authorized banks and their branches located on the territory of the respective constituent entities of the Russian Federation.

**Table 6.2.2
Foreign Cash Purchases by Authorized Banks
from Individuals (in US Dollar Equivalent
for All Currencies)**

General Provisions

The table "Foreign Cash Purchases by Authorized Banks from Individuals (in US Dollar Equivalent for All Currencies)" contains data on the volume of purchase of foreign cash by the authorized banks from individuals in the Russian Federation as a whole and also with the breakdown by the constituent entities of the Russian Federation.

Data are provided by monthly reporting on foreign cash and cheques flows of credit institutions licensed by the Bank of Russia to conduct operations with foreign currency (authorized banks), as well as reporting by authorized bank branches which are permitted to conduct operations with foreign currency.

To addition to being published in the *Bulletin of Banking Statistics*, data on the volume of purchase of the US dollars and the euros by the authorized banks with a breakdown by the constituent entities of the Russian Federation are published in the weekly *Bank of Russia Bulletin*.

Individual Indicators Highlights

Foreign cash purchases by authorized banks from individuals (in US dollar equivalent for all currencies) — amount of foreign cash purchased in the period under review from individuals (residents and nonresidents) for Russian rubles by authorized banks and their branches, internal divisions of authorized banks and their branches located on the territory of the respective constituent entity of the Russian Federation.

Subsection 6.3 Borrowings

Table 6.3.1

Ruble, Foreign Currency and Precious Metals-Denominated Funds of Organizations, Deposits and Other Funds of Legal Entities and Individuals

General Provisions

This table contains aggregate data by federal districts and constituent entities of the Russian Federation on the balances of funds in rubles, foreign currency and precious metals of customers other than credit institutions raised by credit institutions as of the reporting date.

These data are grouped by the place where the funds are raised by credit institutions, their branches and internal divisions.

The source of information is reports compiled by Russian credit institutions (including non-bank credit institutions and State Corporation "Bank for development and foreign economic affairs (Vnesheconombank)") (further — credit institutions) in form 0409302 "Funds Extended and Accepted by Credit Institutions" in compliance with the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Customer funds are accounted for funds in rubles, foreign currency and precious metals of customers — residents and nonresidents other than credit institutions. The balances of funds do not include funds placed as subordinated debt (deposit, loan, bonded loan).

Funds of public organizations are balances of current accounts of state owned organizations in rubles and foreign currency.

Funds of non-public organizations are balances of current accounts of private owned organizations — residents in rubles and foreign currency.

Deposits of legal entities are ruble and foreign currency-denominated funds of residents and nonresidents raised under agreements of bank account and (or) bank deposit, including the funds raised on certificates of deposit. The balances of funds do not include funds placed as guarantee deposit under the contract of safe deposit box rent.

Individual deposits are ruble and foreign currency-denominated funds residents and nonresidents raised under agreements of bank account and the funds raised on savings certificates. The balances of funds do not include funds placed as guarantee deposit under the contract of safe deposit box rent.

Table 6.3.2
Budget Funds in Accounts of Credit Institutions

General Provisions

This table contains aggregate data by federal districts and constituent entities of the Russian Federation on the accounts of federal, regional and local budget funds and extra-budgetary funds.

These data are grouped by the place where the funds are raised by credit institutions, their branches and internal divisions.

The source of information is reports compiled by Russian credit institutions (including non-bank credit institutions and State Corporation "Bank for development and foreign economic affairs (Vnesheconombank)") (further — credit institutions) in form 0409302 "Funds Extended and Accepted by Credit Institutions" in compliance with the Bank of Russia Ordinance No. 2332-U, dated November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Federal budget funds are balances of the federal budget funds, Ministry of Finance funds transferred to finance capital investment and funds to pay cash to receivers of budget funds.

Regional and local budget funds are balances of the regional budgets and local budgets.

Other budget funds are total funds of election commissions, funds for temporary use by budget-financed institutions, Ministry of Finance funds for other settlements on foreign loans, customs duties and foreign trade receipts.

Extra-budgetary funds are total government and other extra-budgetary funds in the accounts with credit institutions: the Pension Fund, the Social Insurance Fund, the Federal and Territorial Obligatory Medical Insurance Funds, Social Support Fund and the regional and local governments' extra-budgetary funds.

Table 6.3.3
Deposit and Savings Certificates and Bonds

General Provisions

The table "Deposit and Savings Certificates and Bonds" shows data on funds raised by credit institutions in rubles and foreign currency by issuing debt securities, such as certificates of deposit, savings certificates and bonds, including matured ones.

The data on the value of credit institutions' funds in the constituent entities of the Russian Federation are aggregated for head offices and branches operated in a particular constituent entity of the Russian Federation (including the branches whose head offices are registered in another constituent entities of the Russian Federation) and don't take into account actual place of registration of security holder. The source of information is data reported by credit institutions in form 0409101 "The Account Book of a Credit Institution" in accordance with the Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Savings (deposit) certificate is a kind of time deposit, a security acknowledging the amount deposited with a bank and entities of a depositor (certificate holder) to receive upon the expiry of the fixed term the deposit and interest indicated in the certificate in the bank that issued the certificate or in any branch of this bank. Savings (deposit) certificates are denominated in rubles. For more information on Savings (deposit) certificates, see the Regulation on the Savings Certificates and Certificates of Deposit Issued by Credit Institutions, approved by the Bank of Russia Ordinance No. 333-U, dated August 31, 1998.

Bond¹ is a financial security entitles the holder to receive, in due time, the nominal value of the bond or any other tangible equivalent. Bonds also provide fixed interest payments or any other tangible equivalent.

Table 6.3.4
Funds of Legal Entities and Individuals Raised by Credit Institutions through Issuing Bills

General Provisions

The table "Funds of Legal Entities and Individuals Raised by Credit Institutions through Issuing Bills" presents data on the funds raised by credit institutions in rubles and foreign currency by issuing bills, including bills matured, which are evaluated at par, and discounting bank acceptances.

The data on the value of credit institutions' funds raised in the constituent entities of the Russian Federation are aggregated for head offices and branches of credit institutions operating in a particular constituent entity of the Russian Federation (including branches whose head offices are registered in another constituent entities of the Russian Federation) and don't take into account actual place of registration of bill holder. The source of information is data reported by credit institutions in form 0409101 "The Account Book of a Credit Institution" in accordance with the Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the

¹ Federal Law No. 39-FZ, dated April 22, 1996, "On the Securities Market" (as revised on May 17, 2007).

List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Bill is direct financial liability completed in a legally prescribed form and issued by a promisor to a billholder which gives the latter unconditional authority to make claims to the promisor in terms of specific amount, time and place.

Subsection 6.4 Funds Allocations

Table 6.4.1 Volume of Ruble-Denominated Loans to Legal Entities-Residents and Individual Entrepreneurs, by Economic Activities and Fund Use

Table 6.4.2 Volume of Foreign Currency-Denominated Loans and Loans in Precious Metals to Legal Entities-Residents and Individual Entrepreneurs, by Economic Activities and Fund Use

Table 6.4.3 Debt on Ruble-Denominated Loans to Legal Entities-Residents and Individual Entrepreneurs, by Economic Activities and Fund Use

Table 6.4.4 Debt on Foreign Currency-Denominated Loans and Loans in Precious Metals to Legal Entities- Residents and Individual Entrepreneurs, by Economic Activities and Fund Use

General Provisions

These tables contain aggregate data on funds lent by credit institutions to legal entities — residents (including financial institutions, organizations of various organizational and legal forms) and individual entrepreneurs in rubles, foreign currency and precious metals by economic activities. Data are grouped by borrowers' residence.

The source of information is reports compiled by Russian credit institutions (including non-bank credit institutions and State Corporation "Bank for development and foreign economic affairs (Vnesheconombank)") (further — credit institutions) in form 0409302 "Funds Extended and Accepted by Credit Institutions" in compliance with the Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Borrower activities correspond to the All Russian Classification of Types of Economic Activity (OKVED). The economic activity of a legal entity or individual entrepreneur is determined by its core activity.

Individual Indicators Highlights

Volume of loans by economic activities is the volume of loans extended from the beginning of the year on the flow basis by credit institutions to legal entities and individual entrepreneurs, by economic activities. These data are shown including data on loans extended by credit institutions that had revoked their licence to conduct banking operations during the reporting period.

Debt on loans by economic activities reflects data on debt on loans (including overdue debt) extended to legal entities and

individual entrepreneurs disaggregated by economic activities.

Table 6.4.5 Loans Extended to Small, Medium-Sized Businesses

General Provisions

This table contains data on ruble, foreign currency and precious metals funds granted to small and medium-sized business with break down by constituent entities of the Russian Federation.

Data are grouped by borrowers' residence.

The source of information is reports compiled by credit institutions (including non-bank credit institutions and State Corporation "Bank for development and foreign economic affairs (Vnesheconombank)") (further — credit institutions) in form 0409302 "Funds Extended and Accepted by Credit Institutions" in compliance with the Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Small and medium-sized businesses are the term used in compiling indicators for this table as it is defined in Federal Law No. 209-FZ of July 24, 2007, "On the Development of Small and Medium-Sized Businesses in the Russian Federation".

Volume of extended loans is the value of loans extended by credit institutions from the beginning of the year and including loans extended by credit institutions that had revoked their licence to conduct banking operations during the reporting period.

Debt — balance of the debt, including overdue debt, on loans extended to the small and medium-sized businesses and individual entrepreneurs.

Overdue debt — balance of the overdue debt on loans extended to the small and medium-sized businesses and individual entrepreneurs.

Table 6.4.6

Loans Extended by Credit Institutions to Individuals-Residents, Outstanding Debt

Table 6.4.7

Selected Indicators on Ruble-Denominated Loans Extended by Credit Institutions to Individuals- Residents

Table 6.4.8

Selected Indicators on Foreign Currency- Denominated Loans Extended by Credit Institutions to Individuals-Residents

General Provisions

The tables show data on loans, including housing / mortgage loans extended by credit institutions to individuals-residents in rubles and foreign currency.

The category of housing loans extended to individuals comprises the following loans:

- a) loans extended for the purchase and development of land for housing construction;
- b) loans extended to finance construction;
- c) loans extended to buy housing.

The category of mortgage loans comprises housing loans extended to individuals against the collateral of real estate according to the procedure established by the Federal Law on Mortgage (real estate mortgage).

Starting from 2010, the source of information has been the reports compiled by credit institutions in form 0409316 "Data on Housing Loans", established by Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation", data on 2008—2009 — form 0409316 "Data on Housing Loans",

established by Bank of Russia Ordinance No. 1376-U of January 16, 2004, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation", prior to 2008 the source of information was the reporting form 0409302 "Funds Extended and Accepted by Credit Institutions".

In addition to being published in the *Bulletin of Banking Statistics*, this information is also available on the Bank of Russia's website.

Individual Indicators Highlights

Value of housing / mortgage loans extended to individuals is the amount of funds provided during the reporting period under credit agreements (additional agreements). This indicator is compiled on the flow basis since the beginning of the year, taking into account data on the loans extended by credit institutions that had revoked banking licences during the reporting period.

Debt on housing / mortgage loans is the balance of the debt on loans, including overdue debt as of the reporting date.

Average weighted maturity of loans extended since the beginning of the year is an average maturity of housing / mortgage loans extended by credit institutions since the beginning of the year and is calculated using the following formula:

$$\bar{T} = \frac{\sum TV}{\sum V}, \text{ where}$$

\bar{T} is the average weighted term of credit;

$T_{1...n}$ is the average weighted maturity of loans extended by a credit institution No. 1...n;

$V_{1...n}$ is the value of loans extended by a credit institution No. 1...n.

Average weighted interest rate on loans extended since the beginning of the year characterizes average interest rates on housing / mortgage loans extended by credit institutions since the beginning of the year and is calculated using the following formula:

$$\bar{P} = \frac{\sum VPT}{\sum VT}, \text{ where}$$

\bar{P} is the average weighted interest rate;

$P_{1...n}$ is the average weighted interest rate on loans extended by a credit institution No. 1...n;

$V_{1...n}$ is the value of loans extended by a credit institution No. 1...n;

$T_{1...n}$ is the average weighted maturity of loans extended by a credit institution No. 1...n.

The regional breakdown of subsector 1 "Indicators of the primary market on housing / mortgage loans" is compiled by grouping data by the borrowers' residence.

Table 6.4.9
Structure of Investment Portfolio of Credit Institutions

General Provisions

The table "Structure of Investment Portfolio of Credit Institutions" contains data on the value of securities other than bills acquired by credit institutions from residents and nonresidents, which are classified as securities under the federal law. These include bonds, deposit certificates, shares and other securities denominated in rubles and foreign currency.

The data on investment portfolio of credit institutions are aggregated for operating credit institutions and their branches registered in a particular constituent entity of the Russian Federation (including branches whose head office is registered in another constituent entity of the Russian Federation) and don't take into accounts actual place of registration of issuer. The source of information is data reported by credit institutions in form 0409101 "The Account Book of a Credit Institution" in accordance with the Bank of Russia Ordinance No. 2332-U of November 12, 2009, "On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation".

Individual Indicators Highlights

Investments in debt obligations, total — credit institutions' investments in debt obligations that are classified as securities under Russian Federation law (debt obligations of the Russian Federation government, the Bank of Russia, regional and local governments, resident credit institutions, and resident organizations other than credit institutions; debt obligations that are backed to repurchase agreements (REPOs) and do not qualify for the derecognition; and non-resident debt obligations, other than bills of exchange, that are considered as securities under the law of the issuer's country). Investments in debt obligations (column 2) include securities that are booked at their fair value through profit or loss, those available for sale and securities that are held to maturity, as well as overdue debt obligations denominated in rubles and foreign currency. The aggregate value of investments in debt obligations (column 2) accounts for revaluation of securities.

Depending on the issuer of securities, *debt obligations* in a credit institution's portfolio include:

debt obligations of the Russian government — all debt obligations of the Russian government denominated in rubles and foreign currency;

debt obligations of the Bank of Russia — debt obligations issued by the Bank of Russia for trade among credit institutions;

debt obligations of regional and local governments — debt obligations issued by the constituent entities of the Russian Federation and local governments;

debt obligations of resident credit institutions — debt obligations issued by credit institutions that are residents of the Russian Federation;

other debt obligations of residents — debt obligations issued by resident organizations other than credit institutions;

investments in nonresident debt obligations (except bills of exchange) that are considered as securities under the law of the issuer's country. In particular, they include:

debt obligations of foreign countries — debt obligations issued by foreign states;

nonresident banks' debt obligations — debt obligations issued by non-resident banks;

other non-residents' debt obligations — debt obligations issued by other non-resident organizations;

debt obligations that do not qualify for derecognition — securities that were backed to repurchase agreements and continue to be recognized;

overdue debt obligations are acquisition costs of debt obligations and total interest (coupon) income, which were previously recognized as incomes, in the event of the securities issuer's failure to repay securities or make coupon payments on time.

Debt obligations of the Russian government and the Bank of Russia (column 3) are accounted for at their balance-sheet value (regardless of revaluation);

Investments in equity securities — investments in shares, stakes and also in any securities, which in accordance with the legislation of the country of their issue entitle a shareholding in the property and (or) net assets of an organization (the residual share in assets remaining after the deduction of all of the organization's liabilities), and also equity securities continue to be recognized.

Investments in equity securities include equities that are booked at their fair value through profit or loss and those available for sale, denominated in rubles or foreign currency.

Investments in equity securities (column 4) are booked with account taken of their revaluation.

Equity in subsidiary and associated joint stock companies is the value of funds invested in shares of resident and non-resident subsidiary and associated joint stock companies that ensures control over the financial and operating policy of the issuer or the ability to exert significant influence on financial and operating policy of a joint stock company.

Other equity is credit institutions contributions in equity of legal entities-residents and non-residents in rubles and foreign currency.

**Table 6.4.10
Discounted Bills**

General Provisions

The table “Discounted Bills” contains information on the value of bills acquired (discounted) by credit institutions, including notes guaranteed by federal, regional and local governments, bills guaranteed by the central and local governments of foreign states and unpaid, protested and unprotested bills.

The data on discounted bills of credit institutions are aggregated for head offices and branches of credit institutions operating in a particular constituent entity of the Russian Federation (including branches whose head offices are registered in another constituent entities of the Russian Federation) and don't take into accounts actual place of

registration of drawer of a bill. The source of information is data reported by credit institutions in form 0409101 “The Account Book of a Credit Institution” in conformity with the Bank of Russia Ordinance No. 2332-U of November 12, 2009, “On the List, Forms and Procedure for Compiling and Presenting Credit Institutions Reporting Forms to the Central Bank of the Russian Federation”.

Individual Indicators Highlights

Ruble and foreign currency-denominated discounted bills, total is the purchase price of ruble and foreign currency-denominated bills and notes acquired by credit institutions, including notes unpaid by the required time.

Total ruble and foreign currency-denominated bills discounted by credit institutions comprise:

bills issued and guaranteed by the federal government;

bills issued and guaranteed by regional and local governments;

bills issued and guaranteed by resident credit organizations; other resident bills;

nonresident bills, which include bills issued and guaranteed by central and local governments of foreign states, bills issued and guaranteed by nonresident banks and other nonresident bills.
